

73rd Annual Conference of Neurological Society of India

# NSICON 2025

In collaboration with CNS & EANS

**73rd Annual Conference of  
Neurological Society of India**

# NSICON 2025

**10 – 14 December, 2025**

**Brilliant Convention Centre,  
Indore, India**

## *Scientific Programme*

## **SPEAKER INFORMATION AND GUIDELINE**

1. The Aspect Ratio of Power Point or Keynote to be maintained in 16x9 Ratio. (PDF is not allowed).
2. **Personal Laptops and Devices for presentation are not allowed.**
3. The Speakers should upload their presentation at the Preview Room by using a Pen drive, e-Mail and Airdrop (for Apple users), at least 4 hours prior to the session. Please do not try to load the presentation at the Hall itself.
4. The Speakers are required to bring the linked video files in a separate folder even though it may be embedded in the presentation directly.
5. The Video files embedded or linked in the presentation should be in .mp4 format. If your file is not ending with .mp4 format, then you can use <https://handbrake.fr/> to convert any video format to mp4.
6. The Speakers are requested to not make any major changes of the presentation at the preview room.
7. After your presentation is uploaded in the preview room, it will be sent to the respective hall using our secured LAN system. The Speaker need not go to the AV console system inside the hall to check if the presentation is working properly again.
8. Restrict the number of slides to most relevant to your topic. For Best time management, number of slides shall be between two to three times of the allotted minutes preferably.
9. A timer will indicate the time you have left for your lecture.
10. A buzzer will sound as a warning for you to conclude.
11. **At the end of the allotted time the lights will come on, the screen will go off and in 15 seconds the audio will also go off** – so please ensure that your lecture finishes within time.
12. All answers to questions / comments are to be directed to the chairpersons only and not directly to delegates.
13. Please be in the Hall where you need to deliver your talk at the start of the session.
14. You are requested to meet the chairperson before the session and indicate that you are present.
15. Please be seated close to the stage / podium during the lecture of the previous speaker.

## **CHAIRPERSON INFORMATION AND GUIDELINES**

1. Please be present at the Hall where you are chairing a session at least 5 minutes before the starting time.
2. Introduce yourself to the other chairperson(s) and plan the session.
3. Check with the AV person in the hall that all talks are loaded.
4. **Start the session on time** irrespective of the number of delegates in the hall.
5. If a speaker is not present, please go to the next speaker.
6. If there is a technical glitch with the presentation of a speaker, please ask the next speaker to deliver the talk. You can come back to this lecture once the problem has been resolved.
7. It is very important to stick to time limit. **No extra time to be allotted or speaker to be allowed to continue speaking beyond time limit.** The AV will go off at the allotted time. At this point, please stop the lecture and request the next speaker to start.
8. Please keep questions and comments as well as answers to all talks short and to the allocated time for this. Detailed discussions, arguments between delegates and speakers should be avoided.
9. Chairpersons should give an opportunity to all delegates, especially younger delegates to ask questions.
10. Chairpersons may summarise the session, please avoid detailed comments.

**11th December 2025**  
**CME Program**  
**Conveners: Sachin A Borkar, Aliasgar V Moiyadi**

<b>0815 - 0830 hrs</b>	<b>Opening Remarks &amp; CME book release</b>
<b>0830 - 1000 hrs</b>	<b>Plenary Session-1</b> Chairpersons: <b>Manas Panigrahi, Paritosh Pandey, Sachin A Borkar</b>
0830 – 0845 hrs	Management of Brain metastases - <b>Sushant Sahoo</b>
0845 – 0900 hrs	Point of care diagnostics in traumatic brain injury - Miles to go before I beep – <b>Dhaval Shukla</b>
0900 – 0915 hrs	Neurorehabilitation: Current status & recent advances - <b>Nirmal Surya</b>
0915 – 0930 hrs	Reconstructive strategies in Extended endonasal endoscopic approaches - <b>Dhandapani SS</b>
0930 – 0945 hrs	Robotics & AR/VR simulation in Neurosurgery – Where we are and the road ahead - <b>Vikas V</b>
0945 – 1000 hrs	Pediatric CV Junction anomalies: Technical considerations and surgical nuances – <b>Pravin Salunke</b>
<b>1030 - 1145 hrs</b>	<b>Plenary Session-2</b> Chairpersons: <b>K Sridhar, Apoorva Pauranik, V G Ramesh</b>
1030 – 1048 hrs	Focussed Ultrasound in neurosurgery – current and evolving applications - <b>Manish Ranjan</b>
1048 – 1106 hrs	Alzheimer's Disease: At the Crossroads of Prediction and Prevention - <b>S M Katrak</b>
1106 – 1124 hrs	Epidermoid tumours: Less is less - <b>Louis Borba</b>
1124 – 1145 hrs	Neurosurgical strategies for blood blister aneurysms - <b>Torstein R Meling</b>
<b>1145 - 1230 hrs</b>	<b>Plenary Session-3</b> Chairpersons: <b>Rakesh Gupta, Shrikant Rege, Aliasgar V Moiyadi</b> Moderator: <b>Arivazhagan A</b>  3 Min Intro by Moderator followed by 12 Min Each by Speakers & 3 Min Rebuttal followed by 10 Min Audience Interaction/ Poll And 2 Min Summary by Moderator
<b>Debate</b> <b>(Intraoperative Imaging in Neurosurgery)</b>	

I prefer intra-operative MRI - **VP Singh**

I prefer intra-operative ultrasound - **Ari Chacko**

<b>1230 - 1330 hrs</b>	<b>12.30-1 pm (Two sides of the coin) 12 min each talk followed by Q &amp; A</b> Chairpersons: <b>B S Sharma, Rajneesh Kachchara, Pramod Giri</b> Moderator: <b>Batuk Diyora</b>
1230 - 1242 hrs	Evolution of Endovascular therapies - <b>Daljit Singh</b>
1242 - 0130 hrs	Micro neurosurgery in vascular disorders – Current role - <b>Dwarkanath Srinivas</b>

**1300 - 1400 hrs**

**Lunch**

**1400 - 1500 hrs**

**Parallel Session (Halls A and B)**

### **Neurosurgery HALL A**

<b>1400 – 1500 hrs</b>	<b>Controversies and consensus</b> Chairpersons - <b>Atul Goel, Shashank Sharad Kale, Pranav Ghodgaonkar</b> Moderator - <b>Zafar Sheikh</b> (12 + 3 min) Each speaker
1400 – 1415 hrs	Intraoperative neuromonitoring in Spinal surgery: Is it the standard of care today? - <b>Ashok Jaryal</b>
1415 – 1430 hrs	Minimalism in Skull base surgery: Has the era of extensive skull base approaches gone - <b>Sumit Sinha</b>
1430 – 1445 hrs	Supramarginal Resections in Gliomas – A mirage? - <b>Vikas Singh</b>
1445 – 1500 hrs	Asymptomatic low-lying cord with scoliosis - Should we detether or not? - <b>Praneeth Kokkula</b>

### **Neurology HALL B**

<b>1400 – 1500 hrs</b>	Chairpersons - <b>Nirmal Surya, Sarosh Katrak, Abhay Bhagwat</b> Moderator – <b>Archana Verma</b>
1400 – 1415 hrs	The Copper Story - <b>Mohit Bhat</b>
1415 – 1430 hrs	Stroke in Tuberculous Meningitis- Pathophysiology and management – <b>U K Mishra</b>

1430 – 1445 hrs	Strokes we should not miss - <b>Subhash Kaul</b>
-----------------	--

<b>1500 - 1530 hrs</b>	<b>Tea Break</b>
------------------------	------------------

<b>1530 - 1630 hrs</b>	<b>Parallel Session (Halls A and B)</b>
------------------------	---

**Neurosurgery  
HALL A**

<b>1530 – 1630 hrs</b>	<b>How I do it?</b> Chairpersons - <b>B K Misra, Subodh Raju, Vikram Muthusubramanian</b> Moderator - <b>Jayesh Sardhara</b> (8 + 2 min) Each speaker
------------------------	--

1530 – 1540 hrs	Difficult superior hypophyseal artery aneurysms- microsurgical clipping – <b>Sanjay Behari</b>
-----------------	---

1540 – 1550 hrs	Vagal nerve stimulation - <b>Suchanda Bhattacharjee</b>
-----------------	---

1550 – 1600 hrs	TONES (Transorbital neuro-endoscopic surgery) - <b>Awadhesh Jaiswal</b>
-----------------	---

1600 – 1610 hrs	Cisternostomy in TBI - <b>Kodeeswaran M</b>
-----------------	---

1610 – 1620 hrs	Posterior approach Spinal accessory to Suprascapular neurotization – <b>Hitesh Gurjar</b>
-----------------	--

1620 – 1630 hrs	Unilateral biportal endoscopy – Stepwise technique - <b>Atmaranjan Dash</b>
-----------------	---

**Neurology  
HALL B**

<b>1530 – 1615hrs</b>	Chairpersons - <b>Anand B, Mathew Abraham, O P Lekhara</b> Moderator - <b>Vikas Naik</b> 3 Min Intro by Moderator followed by 12 Min Each by Speakers & 3 Min Rebuttal followed by 10 Min Audience Interaction/ Poll And 2 Min Summary by Moderator
-----------------------	---

Debate - <b>Should All patients with drug resistant epilepsy be investigated for Epilepsy surgery?</b>
--

For - <b>P Sarat Chandra</b>
------------------------------

Against - <b>Joy Desai</b>
----------------------------

**Common Session  
HALL B**

<b>1630 - 1715 hrs</b>	<b>Interactive Case-Based Panel Discussion</b> Moderator - <b>Girish Menon</b>
1630 – 1645 hrs	Multicompartmental craniopharyngioma - <b>Prakash Nair</b> <b>Discussants: Suresh Nair, K K Bansal, Raghavan Iyengar</b>
1645 – 1700 hrs	Complex cervical spine case – <b>Manoj Phalak</b> <b>Discussants: Lokendra Singh, N Muthukumar, Pranav Ghodgaonkar</b>
1700 – 1715 hrs	Normal Pressure Hydrocephalus – <b>Abhidha Shah</b> <b>Discussants: Pravar Passi, V Roopesh Kumar, Anil Sharma</b>

**12th December 2025**

**Hall A**

<b>0800 - 1000 hrs</b>	<b>Free Paper Session: Vascular</b> Chairs: <b>Deepu Banerji, Srinivasan Paramasivan, Swati Chinchure</b> Moderator:
0800 – 0806 hrs	Intracranial aneurysm and it's correlation with pheochromocytoma – <b>Mukesh Singh</b>
0806 – 0812 hrs	Intracranial Aneurysm Morphology and its Correlation with the Risk of Aneurysmal Rupture - <b>Ishwar Singh</b>
0812 – 0818 hrs	Bypass for Giant Cerebral Aneurysm – <b>Varun Mistry</b>
0818 – 0824 hrs	Optimizing Outcomes in Intracranial Aneurysms: Insights from Surgical and Endovascular Treatments - <b>K Selvamuthukumaran</b>
0824 – 0830 hrs	Endovascular vs Microsurgical Clipping of Intracranial Aneurysms: Outcomes in a Resource-Limited Setting - <b>Jitendra Yadav</b>
0830 – 0836 hrs	Aneurysm and Neurocysticercosis: Case Report and Review of the Literature - <b>Hariharasudan R</b>
0836 - 0842 hrs	The Hybrid Paradigm for MCA Aneurysm Management - <b>Nitin Dange</b>
0842 - 0850 hrs	Management Dilemmas in Elderly aneurysmal SAH - <b>Deepu Banerji</b>
0850 - 0858 hrs	Cerebrospinal Fluid Proteomics Reveals Inflammatory Activation in Aneurysmal Subarachnoid Hemorrhage Irrespective of HIV Status - <b>Rohen Harrichandparsad</b>
0858 - 0906 hrs	Endovascular techniques in the treatment of cerebral aneurysms - <b>Andre Giacomelli</b>
0906 - 0912 hrs	SOX-17 Overexpression and Neurocognitive Deficits in an Indian Cohort with Intracranial Aneurysms: A Prospective Study - <b>Mayank Verma</b>

0912 - 0918 hrs	Serum biomarkers as supplementary prediction tool for management of aneurysmal subarachnoid hemorrhage patients - <b>Varun Kumar Aggarwal</b>
0918 - 0924 hrs	Coil Era or Not, The Clip Still Speaks: Early Surgical Insights - <b>Raghavendra Harpanahalli</b>
0924 - 0930 hrs	ACOM aneurysm clipping strategy in endovascular era - <b>G D Singhal</b>
0930 - 0936 hrs	Comprehensive management of Anterior communicating artery (ACom) aneurysmal rupture: challenges and outcomes - <b>Senthil Kumar K</b>
0936 - 0942 hrs	Management of large & giant vertebrobasilar dysplastic aneurysms - <b>Kushal Bhatia</b>
0942 - 0950 hrs	Braid Deformity following Flow diverter for Brain Aneurysms - <b>Srinivasan Paramasivam</b>
0950 – 1000 hrs	<b>Discussion</b>

<b>1000 - 1115 hrs</b>	<b>Award Papers [ 8 + 4 mins]</b> <b>Chairpersons: Manas Panigrahi, K Sridhar, YR Yadav</b>
	<b>Neurosurgery</b>
1000 - 1012 hrs	Does hypertonic saline cause delayed hyponatremia in traumatic brain injury patients undergoing osmotherapy? – A randomized controlled trial between hypertonic saline and mannitol – <b>Kent Reji</b>
1012 - 1024 hrs	Enhanced Detection of Canonical and Non-Canonical IDH1 Mutations in Gliomas Using Multiplex droplet digital PCR: A Comparative Diagnostic Study- <b>Dheeraj Shrikant Innanje</b>
1024 - 1036 hrs	Effect of Deep Brain Stimulation Surgery on objective gait parameters in patients of Parkinson’s Disease: A prospective observational study- <b>Gagandeep Gupta</b>
1036 - 1048 hrs	Utility of Intraoperative Vascular Flow Dynamics in Predicting Long Term outcome in Moya Moya Disease after Direct Revascularization - <b>Akshay Ganeshkumar</b>
	<b>Allied Neurosciences</b>
1048 - 1100 hrs	Integrating Vascular Anatomy into Fixation Planning: An Algorithmic Approach to V3 Segment Vertebral Artery Variants at the Craniovertebral Junction - <b>Anantha Chaitanya J</b>
	<b>Cost Effective Management</b>
1100 - 1112 hrs	From Chaos to Clarity: Machine Learning-Enhanced NIRS Based Solution for Rapid, Cost effective and Accurate TBI Triage - <b>Vedang Bhushan Mahajan</b>

<b>1115 – 1125 hrs</b>	<b>INTERLUDE 1 - Faculty Development Program – SS Kale</b>
------------------------	--

<b>1125 - 1210 hrs</b>	<b>Dr Ram Ginde Oration</b> Chair persons: <b>Manas Panigrahi, Paritosh Pandey, Girish Menon</b> Orator: <b>Prof Luis Borba</b>
1130 – 1133 hrs	About Dr Ram Ginde – <b>Vikram Karmarkar</b>
1133 – 1135 hrs	Introducing the Orator – <b>Basant Misra</b>
1135 – 1200 hrs	Oration – <b>Luis Borba</b>
1200 – 1210 hrs	Felicitation, Photograph
<b>1215 - 1300 hrs</b>	<b>Presidential Oration</b> Chairpersons: <b>KVR Sastry, Daljit Singh, K Sridhar</b> Orator: <b>Manas Panigrahi</b> Moderator: <b>Paritosh Pandey</b>
1215 – 1220 hrs	Introduction of Manas Panigrahi – <b>Suchanda Bhattacharjee</b>
1220 – 1250 hrs	Oration – <b>Manas Panigrahi</b>
1250 – 1300 hrs	Felicitation, Photograph
<b>1300 - 1330 hrs</b>	<b>Award Poster Session</b> Chairpersons: <b>Manas Panigrahi, Mathew Abraham, Anil Sharma</b>
1300 – 1307 hrs	Occipital Condyle screw insertion and craniocervical realignment and fixation under Neuronavigation and Mazor X Robotic Guidance System: A Case Report – <b>Ramcharan Peddini</b>
1307 – 1314 hrs	Correlation of motor evoked potentials (MEPs) with clinically evident dynamic spinal cord compression – <b>Ravi Kiran B</b>
1314 – 1321 hrs	Fanconi Anemia Neuroinflammatory Syndrome: Multiple Recurrent Brain Lesions, Progressive Decline, and Surgical Management in a Rare Paediatric Case – <b>Navajith A Mani</b>
<b>1300 - 1400 hrs</b>	<b>Lunch</b>
<b>1400 - 1530 hrs</b>	<b>Presidential Symposium: Pearls Of Wisdom</b> Chairpersons: <b>KVR Sastry, BA Chandramouli, VS Mehta, Deepu Banerji</b>
1405 – 1410 hrs	Introduction - <b>Manas Panigrahi</b>
1410 – 1422 hrs	Mysteries of Brain Function - <b>Debashish Choudhry</b>
1423 – 1435 hrs	Neurosurgical lessons learned from Economics- <b>N Muthukumar</b>
1436 – 1448 hrs	Protocols in Neurosurgery: Bane or Boon - <b>Suresh Nair</b>

1449 – 1501 hrs	Joys of writing - <b>Subash Kaul</b>
1502 – 1514 hrs	Status of Indian Neurosurgery: Our views and the world's perception - <b>Basant Misra</b>
1515 – 1527 hrs	Journey from a village to Rastrapati Bhavan - <b>A K Mahapatra</b>
1527 – 1530 hrs	Concluding remarks
1530 – 1540 hrs	<b>INTERLUDE 2 - NEUROLOGY INDIA CASE REPORTS - Girish Menon</b>
<b>1540 – 1640 hrs</b>	<b>PANEL DISCUSSION - NEUROSURGICAL EDUCATION STANDARDS</b> Moderator: <b>Adesh Shrivatsava</b> Panelist: <b>Sanjay Behari, Dhaval Shukla, Dilip Panikar, Vikram Karmakar, Vernon Velho, Vijaya Shekhar, Sumit Sinha, Mayank Chakraborty</b>
<b>1640 - 1650 hrs</b>	<b>INTERLUDE 3- Competency Based Uniform Curriculum of NSI - K Sridhar</b>
<b>1700 - 1800 hrs</b>	<b>NSI Innovator Award</b> Chairpersons: <b>Manas Panigrahi, Lokendra Singh, Muthukumar N</b> Moderator: <b>Jayesh Sardhara</b>
<b>1700 - 1730 hrs</b>	<b>Surgical Technique</b>
1700 - 1710 hrs	Indocyanine Green (ICG) Angiography For Prediction Of Visual Improvement After Microsurgical Excision Of Pituitary Adenoma And Tuberculum Sella Meningiomas - <b>Harsh Deora</b>
1710 - 1720 hrs	Microneurosurgery skill development using naturally available material – <b>Rai Survendra Kumar Rajdeo</b>
1720 - 1730 hrs	Multiport Endoscopic Contralateral Medial Transorbital Approach for Targeting Paramedian and Lateral Skull Base Pathologies - <b>Jaskaran Singh Gosal</b>
<b>1730 - 1800 hrs</b>	<b>Equipment / Instrument</b>
1730 - 1740 hrs	A simple funnel guide device for accurate placement of external ventricular drain - <b>Wilson Prashanth D'souza</b>
1740 - 1750 hrs	Excision of deep seated intracranial pathologies utilizing a novel and lightweight retraction device - <b>Saraj Kumar Singh</b>
1750 - 1800 hrs	PRECOVA- Universal Head Frame - <b>Ved Prakash Maurya</b>
<b>1800 onwards</b>	<b>General Body Meeting</b>

**12th December 2025**

**Hall B**

<b>0800 - 1000 hrs</b>	<b>Free Paper Session <b>Spine</b></b> <b>Chairpersons:</b> Komal Prasad C, Jayesh Sardhara, Subodh Jain <b>Moderator:</b>
0800 - 0806 hrs	Management of craniovertebral junction tuberculosis: A 15 year experience - <b>Adrian Jacob</b>
0806 - 0812 hrs	Occiput–Cervical Fixation Using Posterior C1 Laminar Wiring in Infectious and Neoplastic Atlantoaxial Rotatory Subluxation: Our experience - <b>Shashank Nahar</b>
0812 - 0818 hrs	Radiological outcome of operated cases of CV Junction Pathology - A Prospective Study <b>Murtaza Saifi</b>
0818 - 0824 hrs	Comprehensive C1–C2 Joint Drilling as an Adjunct to Posterior Fixation for Irreducible Atlantoaxial Dislocation: A Clinical and Radiological Outcome Study - <b>Rashim Kataria</b>
0824 - 0830 hrs	Surgical Insights into Craniovertebral Junction Arthritis: modified PESCA as a Focused approach - <b>Palukuru Nikshith Kumar Reddy</b>
0830 - 0836 hrs	Surgical Management of Atlantoaxial Dislocation: Technical Nuances, Operative Strategies, and Long-Term Outcomes from a Retro-Pro prospective Observational Study of 70 Consecutive Cases - <b>Navajith Mani</b>
0836 - 0842 hrs	Diffusion Tensor Imaging as an outcome predictor in CVJ Anomalies - <b>Harshit Garg</b>
0842 - 0850 hrs	Development of a Robotic Workflow for Complex Craniovertebral Junction Fixation Using the Mazor X System - <b>Komal Prasad Chandrachari</b>
0850 - 0858 hrs	Lateral Proatlas failures: An Under recognised entity - <b>N Muthukumar</b>
0858 - 0906 hrs	4D MISS – <b>Jayesh Sardhara</b>
0906 - 0912 hrs	Postoperative Clinical Outcomes Following C1–C2 Fixation in Patients with Atlantoaxial Instability: A Prospective Observational Study - <b>Avinash Yadav</b>
0912 - 0918 hrs	Optimizing Stability and Neurological Recovery: Postoperative Outcomes of Posterior Fixation in Bony CVJ Anomalies - <b>Himansu Kand</b>
0918 - 0924 hrs	Outcomes of Atlantoaxial Fixation: A Ten-Year Clinical Review of C1–C2 Stabilization - <b>Suraj Ethiraj</b>
0924 - 0930 hrs	DISCUSSION

<b>0930 - 1000 hrs</b>	<b>DEBATE 1: CERVICAL ARTHROPLASTY – IS IT INDICATED AT ALL?</b> <b>Judge:</b> Muthukumar N
	<b>For:</b> PK Sahoo
	<b>Against:</b> LN Tripathy

<b>1300 - 1400 hrs</b>	<b>Lunch</b>
------------------------	--------------

<b>1400-1500 hrs</b>	<b>Stroke Symposium</b> Chairpersons: <b>Padma MV, MM Mehndiratta, Paritosh Pandey</b> Moderator: <b>Paritosh Pandey</b>
1400-1415	<b>IAN LECTURE</b> – Thirty years since the NINDS trial- the current status of stroke thrombolysis and thrombectomy – <b>Sylaja PN</b>
1415-1425	Comparing various techniques of Mechanical Thrombectomy- <b>Anshu Mahajan</b>
1425-1435	CEA and CAS: Overview of recent and ongoing trials- <b>Sudheer Ambedhkar</b>
1435-1445	AI in stroke management and decision making- <b>SP Gorthi</b>
1445-1500	Establishing a Stroke-ready hospital: What does it take? - <b>Padma MV</b>

1500-1600	<b>Special Lectures</b> <b>Chairpersons: Debashish Choudhry, Sunil Athley, T N Satyaprabha</b>
1500-1515	<b>IAN LECTURE:</b> Red flags to identify before you decide to operate: What the neurosurgeons should know about Non compressive myelopathy- <b>Achal Srivastav</b>
1515-1530	Amyotrophic Lateral sclerosis – <b>Ashok Verma</b>
1530-1542	Minimally invasive, maximally effective: tailoring neurosurgical care for the ageing spine – <b>Marcos Wagner</b>
1542-1554	TBD - <b>Regunath Kandasamy</b>
1554-1604	<b>DISCUSSION</b>

<b>1604-1800 hrs</b>	<b>FREE PAPERS Session Spine</b> <b>Chairpersons: Prakash Modha, Rajneesh Kachhara, Nilesh Jain</b> <b>Moderator:</b>
1606-1612	Stabilization over Decompression: Posterior C1–C2 Fixation as a Definitive Solution for Chiari I Malformation- <b>Siddharth Gautam</b>
1612-1618	Do we need to relook into the treatment of Chiari malformation with syringomyelia beyond the conventional treatment? Our Institutional experience- <b>Saswat Kumar Dandpat</b>
1618-1624	Rare neglected case large sacral Chordoma: treated with near total excision and lumbopelvic fixation- <b>Dhaval Patel</b>
1624-1630	Rare spinal cord tumors - diagnostic and therapeutic challenges- <b>Yaswanth Kumar Bade</b>
1630-1636	Surgical management of cervical OPLL by only fixation - a paradigm shift! - <b>Apurva Prasad</b>
1636-1642	Lower cervical spine instability in degenerative cervical compressive myelopathy and its impact on decision making for surgery - <b>Binoy Kumar Singh</b>
1642-1648	Unveiling Predictors of Outcomes in K-Line Positive Cervical Ossified Posterior Longitudinal Ligament (OPLL) Treated with Decompressive Laminectomy: Insights from our experience. - <b>Anubandh Ponnamanda</b>
1648-1654	Study of clinical outcome after Anterior Cervical Corpectomy with fusion using expandable cage with anterior cervical plating- 50 CASES - <b>Hukum Singh</b>
1654-1700	Histopathological study of cervical vertebrae in symptomatic cervical spondylosis - <b>Satej Patnaik</b>
1700-1708	Sub axial cervical spine facet fixation with decompression - <b>Modha's</b> Technique- Single Institute experience - <b>Prakash Modha</b>
1708-1716	Role of corpectomy for cervical spine pathologies: our experience - <b>Rajneesh Kachhara</b>
1716-1722	Managing ACCF infection - <b>Deepak Das</b>
1722-1728	Posterior Arthrodesis for Traumatic Cervical Subluxation: Achieving Realignment and Resilience - <b>Krishna Sai Dhanekula</b>
1728-1734	Complication avoidance and management of spinal fluorosis; How to tame the spinal python - <b>Divyam Sharma</b>
1734-1740	Hirayama Disease - Observational Study of Endocrine and radiological characteristics - <b>Pavankumar L More</b>
1740-1746	Age and sex wise CT based Lateral Mass Morphometric Study of the Subaxial Cervical Spine in a South Indian adult population - <b>Arunava Gupta</b>

1746-1752	Outcome analysis of Transfacetal Screw Fixation with Decompressive Cervical Laminectomy in the management of Cervical Canal Stenosis due to varied etiology – <b>B Eswar Naik</b>
<b>1752-1800</b>	<b>Discussion</b>

<b>1800 hrs onwards</b>	<b>GBM in Hall A</b>
-------------------------	----------------------

**12th December 2025**

**Hall C**

<b>0800 - 1000 hrs</b>	<b>Free Paper Session Oncology</b> Chairpersons: <b>Pradipta Tripathy, Shaswath Mishra, Nitin Garg</b> Moderator
0800 - 0806 hrs	Pituicytoma: A Rare Sellar –Suprasellar Tumor - <b>Abhishek Kumar</b>
0806 - 0812 hrs	Sphenoid Sinus Inflammatory Lesion masquerading as malignancy and Pitutary Apoplexy - <b>Raju PV</b>
0812 - 0818 hrs	Pediatric Suprasellar Lesions – Clinical Spectrum, Surgical Approaches, and Outcomes: A Single-Center Experience - <b>Sagar Dilip Rathod</b>
0818 - 0824 hrs	Endocrine Outcomes After Surgical Treatment of Pituitary Adenomas: A Prospective Study - <b>Rahul Jain</b>
0824 - 0830 hrs	Management of craniopharyngiomas - <b>Kamlesh Rangari</b>
0830 - 0836 hrs	Anatomical Patterns of Medial Cavernous Wall Invasion in Functional Pituitary Adenomas: Surgical Correlation and Clinical Outcomes - <b>Ashutosh Carpenter</b>
0836 - 0842 hrs	current conept in management of Medulloblastoma – <b>Arvind Kumar Srivastava</b>
0842 - 0850 hrs	Complications following microscopic transphenoidal surgery of Sellar pathologies - <b>Pradipta Tripathy</b>
0850 - 0858 hrs	Surgical resection of insular gliomas: navigating the challenge with anatomy as the pole star - <b>Shashwat Mishra</b>
0858 - 0906 hrs	Insular Glioma Surgery: The hybrid onco microneurosurgical approach. – <b>Kuntal Kanti Das</b>
0906 – 0912 hrs	BrainPath-Assisted Intraventricular Tumor Resection via Parafascicular Approach: Experience with 51 Cases – <b>Mohana Rao Patibandla</b>

0912 - 0918 hrs	Efficacy Intraoperative Ultrasound in excision of Insular Glioma – <b>Aditya Madishetty</b>
0918 - 0924 hrs	The Value of INI-1/SMARCB1 as an indicator for Familial Schwannomatosis – <b>Izhar Vinson Iyapillai</b>
0924 - 0930 hrs	"Surgical Management and Functional Outcomes in Pediatric Posterior Fossa Tumors: A Five-Year Institutional Review with Emphasis on Postoperative Morbidity and Neurocognitive Sequelae" - <b>Anwasha Mohanty</b>
0930 - 0936 hrs	The comparison between Transvermian and Telovelar Approach in the Management of IV Ventricular Tumors - <b>Sateesh Melkundi</b>
0936 - 0944 hrs	Posterior fossa intraaxial tumors: lessons learned!!!! <b>Pramod Giri</b>
0944 - 1000 hrs	Discussion

<b>1300 - 1400 hrs</b>	<b>Lunch</b>
------------------------	--------------

<b>1400 - 1550 hrs</b>	<b>Free Paper Functional and Epilepsy</b> Chairpersons: <b>Suchanda Bhattacharya, Abhidha Shah, Rajesh Muley</b> Moderator
1400 - 1406 hrs	Amygdalohippocampectomy in Medial Temporal Lobe Epilepsy: An Anatomically-Guided Surgical Technique - <b>Arvind Kumar</b>
1406 - 1412 hrs	A Study of Quality of Life in Epilepsy Patients at a Tertiary Care Centre in India - <b>Gudla Surya</b>
1412 - 1418 hrs	Establishing an Epilepsy Surgery Program in India: Lessons from a Non-Linear Path - <b>Satyakam Baruah</b>
1418 - 1424 hrs	Application of combined multimodal neuroimaging and video-electroencephalography in intractable epilepsy patients for improved post-surgical outcomes - <b>Abinash Dutta</b>
1424 - 1430 hrs	Association of the extent of surgical resection with the postoperative visual field defect and seizure outcome in patients with Mesial Temporal Sclerosis- An ambispective observational study - <b>Tankin Shenoy G</b>
1430 - 1445 hrs	<b>IAN Lecture</b> - Pre surgical Evaluation of MRI Negative Epilepsy - <b>Sita Jayalakshmi</b>
1445 - 1453 hrs	Surgical outcome of Drug-resistant epilepsy in focal cortical dysplasia – <b>Suchanda Bhattacharjee</b>
1453 - 1501 hrs	White fiber correlates of epilepsy surgery: Cadaveric simulation and operative technique - <b>Abhidha Shah</b>

1501 - 1507 hrs	Long-term predictors of favorable and non favorable outcomes in temporal epilepsy surgery - <b>Igor Trifonov</b>
1507 - 1513 hrs	Surgical Management of Spasticity: Principles, Techniques, and Outcomes – <b>Jitin Bajaj</b>
1513 - 1519 hrs	Pain injections in Neurosurgery - <b>Amit Kumar Deol</b>
1519 - 1525 hrs	NEUROVASCULAR CONFLICTS: Surgical Nuances and what to do if symptoms recur! - <b>Brig Manish Sharma</b>
1525 - 1531 hrs	Endoscope only assisted Microvascular Decompression of Cranial Neuralgia secondary to vascular conflict (in sitting position): Single institute Experience - <b>Naveen Kumar Gaur</b>
1531 - 1537 hrs	Microvascular Decompression for Classical Trigeminal Neuralgia: A Single-Centre Retrospective Case Series of Functional Outcomes - <b>Himanshu Prasad</b>
1537 - 1550 hrs	<b>Discussion</b>

<b>1600 - 1745 hrs</b>	<b>Free Paper Session: Oncology</b> Chairpersons: <b>Kuntal Kanti Das, Aliasgar Moiyadi, Neha Rai</b> Moderator
1600 - 1608 hrs	Tumors of the "Seat of the Soul" - Pineal Region Tumors – <b>Prof (Brig) Maneet Gill</b>
1608 - 1616 hrs	Radiotherapy in Low-Grade Gliomas: Current Evidence and Evolving Strategies - <b>Roberth de Jesus Carvalho</b>
1616 - 1622 hrs	Predictors of Recurrence in Central Nervous System Solitary Fibrous Tumors: A Retrospective Study of 68 Cases - <b>Sherin Alias Arthungal</b>
1622 - 1628 hrs	Posterior Fossa Epidermoids Presenting with Trigeminal Neuralgia: Largest Single-Centre Series with Phenotypic Comparison of Isolated TN and TN Plus Neurological Deficits - <b>Aanchal Datta</b>
1628 - 1634 hrs	Intraoperative Subcortical Mapping of Motor Evoked Potentials during Periolandic Brain Tumor Resection: An Evaluation of Motor Function and Potential Risk Deficit - <b>Mohit Mohindra</b>
1634 - 1640 hrs	Role of Gamma-Knife in high grade gliomas - <b>Mahnaaz Sultana Azeem</b>
1640 - 1646 hrs	NRF2 Overexpression Promotes Glioblastoma Cell Survival and Temozolomide Resistance: A Potential Diagnostic and Therapeutic Target - <b>Minakshi M Behera</b>
1646 - 1652 hrs	Trans Sulcal approach for resection of deep intra axial lesions in eloquent brain areas - <b>Vikrant Pujari</b>
1652 - 1658 hrs	Endovascular targeted Chemotherapy in Advanced Retinoblastoma: Technical Feasibility and Safety Profile - <b>Suraj Gopal</b>

1658 - 1704 hrs	Tumor Recurrence vs Pseudoprogression: An Enigma and Its Solution – Our Experience - <b>Pandu Pranav</b>
1704 - 1710 hrs	The Endoscopic Supracerebellar Infratentorial Corridor: Reaching the Event Horizon of Deep-Seated Intracranial Lesions - <b>Soumen Kanjilal</b>
1710 - 1716 hrs	The Callosal Divide: Anterior vs Posterior Lesions and Their Surgical–Oncological Destiny - <b>Sumit Malgaonkar</b>
1716 - 1724 hrs	Relook Surgery for gliomas – Case selection and Oncological benefits – <b>Aliasgar Moiyadi</b>
1724 – 1736 hrs	Designing Rational Surgical Strategy for gliomas – <b>Atul Goel</b>
1736 – 1744 hrs	TBD – <b>Keki Turel</b>
1744 - 1800 hrs	Discussion

**1800 hrs Onwards**      **GBM IN HALL A**

**12th December 2025**

**Hall D**

<b>0800 - 1000 hrs</b>	<b>Free Paper Session Trauma</b> Chairpersons: <b>Prasad Krishnan, Deepak Agarwal, Deepak Kulkarni</b> Moderator
0800 - 0806 hrs	Calcified Chronic Subdural Hematoma: A Rare Neurosurgical Entity - Clinical Experience and Literature Review - <b>Shashank Mishra</b>
0806 - 0812 hrs	Endoscopic Drainage of Membranous Chronic SDH: An institutional experience. - <b>Jitendra Tadghare</b>
0812 - 0818 hrs	To Strip or Not to Strip: Seizure Outcomes in Chronic SDH with Membranectomy - <b>Palash Kundu</b>
0818 - 0824 hrs	Comparison of Brain Expansion Rate After Endoscopic vs. Conventional Craniotomy in Chronic Subdural Hematoma with Membrane Formation – <b>Naveen Kumar M</b>
0824 - 0830 hrs	“From Mimicry to Mechanism: Targeting the Source for Better Outcomes in Chronic Subdural Hematoma” - <b>Pranshu Mehta</b>
0830 - 0836 hrs	Rewiring the Management of Chronic Subdural Hematoma: The Role of Endovascular MMA Embolization - <b>Mahesh Ramola</b>

0836 - 0842 hrs	Craniotomy vs. Endoscopic Membranectomy in the Treatment of Non-Homogeneous Chronic Sub-Dural Hematoma: A Pilot Randomized Parallel-Group Active-Controlled Superiority Trial (EMiT-CSDH 2) - <b>Priyadharshan KP</b>
0842 - 0850 hrs	Surgical treatment of traumatic intracerebral hematoma - <b>Luis Robson</b>
0850 - 0858 hrs	Measuring the size of the Bone Flap in Decompressive Craniotomy: Can uniformity in measurement lead to unity in practice? - <b>Prasad Krishnan</b>
0858 – 0906 hrs	'DA-CAP' Drain: An Innovative non-contact Chronic Subdural Hematoma Drainage System - <b>Deepak Agrawal</b>
0906 – 0912 hrs	Comparative efficacy of Endoscope-Assisted Burr Hole, Conventional Burr Hole, and Craniotomy In Acute-On-Chronic And Membranous Subdural Hematomas: A Prospective Study - <b>Tarunesh Sharma</b>
0912 – 0918 hrs	Role Of Tranexamic Acid To Reduce Risk Of Recurrence After Burr-Hole Surgery For Chronic Subdural Hematoma, A Prospective Observational Study- <b>Abu Raihan Mijanuddin</b>
0918 - 0924 hrs	Surgical evacuation for chronic subdural hematoma: Predictors of reoperation and functional outcomes - <b>Pritam Laskar</b>
0924 - 0930 hrs	Beyond the Clot: Decoding Functional Recovery in Chronic Subdural Hematoma Through Clinical and Biochemical Signatures - <b>Vishnu S Murali</b>
0930 - 0936 hrs	Do Anticoagulants alter management and outcomes in chronic subdural hematoma? Insights from a Restrospective case control study – <b>Kshitij Raj Mahajan</b>
0936 - 0942 hrs	Assessment of predictive accuracy of Glasgow coma scale score and computed Tomography in acute traumatic head injury – <b>Jolly Sinha</b>
0942 - 0948 hrs	"X" Fashioned innovative closure of the scalp in Trauma - <b>Dhruva holla</b>
0948 - 1000 hrs	Discussion

<b>1300 - 1400 hrs</b>	<b>Lunch</b>
------------------------	--------------

<b>1400 - 1530 hrs</b>	<b>Free Paper Session Vascular</b> Chairpersons: <b>Sandeep Mohindra, Anil Sharma, Zafar</b> Moderator
1400 - 1406 hrs	Hybrid Neurosurgery: Just a term or Need of hour - <b>Hemant Kumar Beniwal</b>
1406 - 1412 hrs	Surgical management of lateral medullary PICA aneurysm- challenges – <b>Jagath Lal G</b>
1412 - 1418 hrs	Projection of Anterior Communicating Artery Aneurysms and Tailored Clip Angle: A One-Year Experience - <b>Rajarajan Jayachandran</b>
1418 - 1424 hrs	Hormone Replacement Therapy and Risk of Intracranial Aneurysm and Subarachnoid Hemorrhage in Postmenopausal Women: A TriNetX-Based Cohort Study - <b>Ruchika</b>

1424 - 1430 hrs	Awake Endovascular coiling for Aneurysms: Myth or Reality - <b>Shikhil Uppal</b>
1430 - 1438 hrs	Transcavernous Approach to Basilar Tip Aneurysms- <b>Torstein R Meling</b>
1438 - 1446 hrs	2311 aneurysm surgeries, 2573 aneurysms clipped, 25 years ; A fine look between the numbers - <b>Sandeep Mohindra</b>
1446 - 1452 hrs	Major vessel injury in cranial neurosurgical procedures over past 15 years - <b>Parthasarathi Datta</b>
1452 - 1458 hrs	Clinical Profile and Outcome of All Surgically Treated Spontaneous Intracerebral Hemorrhage Patients - <b>Kunj Bihari Saraswat</b>
1458 - 1504 hrs	"A Prospective Observational Study on Curative Endovascular Embolisation: Evaluating its effectiveness in treatment of Cerebral Vascular Malformations - <b>Tirtha Raj Manna</b>
1504 - 1510 hrs	Malignant presentations of Dural AV Fistulas - <b>Amrita Endow</b>
1510 - 1516 hrs	Spontaneous Thrombosis of vein of Galen Malformation: A Diagnostic Delimma - <b>Siddharth Singh</b>
1516 - 1522 hrs	Microsurgical treatment of grade III AVM with large – giant venous varix and long term outcome - <b>Akshay S Patil</b>
1522 - 1530 hrs	DISCUSSION

<b>1530 - 1700 hrs</b>	Free Paper Session <b>Trauma</b> Chairpersons: <b>Vinu Gopal, Kodeeswaran M, Mukesh Sharma</b> Moderator
1530 – 1536 hrs	Early Serum Thyroxine as a Prognostic and Psychoneuro-endocrine Marker after Moderate-to-Severe Traumatic Brain Injury - <b>Kanav Gupta</b>
1536 - 1542 hrs	Progressive Haemorrhagic Injury in patients with moderate to severe Traumatic Brain Injury - <b>Pradeep Kumar</b>
1542 - 1548 hrs	DuraSplit-Assisted lax Duraplasty in Traumatic Brain Injury: A Novel Approach to Dural Repair - <b>Ram Kumar Choudhary</b>
1548 - 1554 hrs	Basal Cisternostomy: A Young Neurosurgeon's Approach Using Surgical Loupes in Trauma Cases - <b>Sugat M Wasekar</b>
1554 - 1600 hrs	A Study to Validate Serum Glial Fibrillary Acidic Protein Levels and S-100B Levels as a Specific Neurobiomarker and Their Comparison in Traumatic Brain Injury Patients - <b>Praveen Raj</b>
1600 - 1608 hrs	Decompressive craniectomy in TBI: current evidence and perspectives- <b>Luis Robson</b>
1608 - 1616 hrs	Effectiveness of a Structured Rehabilitative Program in improving quality of life and Stress Hormonal Levels in patients with Traumatic Spinal Cord Injury – <b>Vinu V Gopal</b>

1616 - 1622 hrs	Neurorehabilitation Outcomes in Diffuse Axonal Injury: A Retrospective Analysis of 200 Patients at a Single Tertiary Institute - <b>Shrish Nalin</b>
1622 - 1628 hrs	Aging Brains at risk: A case series on unique challenges faced while managing geriatric patients with head trauma – <b>Chithra Thomas</b>
1628 - 1634 hrs	Comparative study between Autologous Pericranial Onlay Graft and Synthetic Collagen-Based Onlay Dural Substitute with Fibrin Glue Augmentation in patients undergoing Decompressive Hemicraniectomy - <b>Bismoy Mondal</b>
1634 - 1640 hrs	Optimizing Mild Traumatic Brain Injury (mTBI) Triage: A Comparative Analysis of CEREBO® vs clinical prediction in reducing CT Utilization and improving cost-effectiveness - <b>Kevin Jude Sudevan</b>
1640 - 1646 hrs	CEREBO® for Paediatric TBI Triage: A Prospective Study on NIRS-Based Detection of Intracranial Hemorrhage - <b>Hemakshi Bansal</b>
1646 - 1652 hrs	Triggering Early Alarms: Clinical Utility of Point-of-Care NIRS for Rapid TBI Triage and Intracranial Injury Detection - <b>Vijaya Sekar Manda</b>
<b>1652 - 1700 hrs</b>	<b>Discussion</b>

<b>1700 - 1800 hrs</b>	<b>Financial Insights</b> <b>Chairpersons: TBD</b> Moderator: <b>Pramod Giri</b>
1700 - 1715 hrs	Finance – Importance for a young neurosurgeon - <b>Pramod Giri</b>
1715 - 1730 hrs	Planning your financial Future – <b>Nilesh Agarwal</b>
1730 - 1745 hrs	How to Invest in the Share Market – Headache or a safe future? <b>Shantanu Chavan</b>
1745 – 1800 hrs	Discussion

<b>1800 hrs onwards</b>	<b>GBM in Hall A</b>

## 13th December 2025

### Hall A

<b>0800 - 1000 hrs</b>	<b>Free Paper Session – Skull Base</b> <b>Chairs: Suresh Sankhala, Roopesh Kumar V R, Rupesh Khatri</b> <b>Moderator:</b>
0800 - 0806 hrs	Benign but Bold, Petrous apex Osteoma: Case Report and Review of a Rare case - <b>Jigar Aagja</b>
0806 - 0812 hrs	Impact of Intraoperative Ultrasonography in Endoscopic Endonasal Resection of Sellar and Suprasellar Pathologies - <b>Chandrima Biswas</b>
0812 - 0818 hrs	Outcome assessment of endoscopic endonasal transsphenoidal approach for pituitary adenoma with intradural and extradural suprasellar extensions: Our experience of 18 cases in last 3 years - <b>Dilip Dutta</b>
0818 - 0824 hrs	Endonasal Transseptal Corridor: A Novel Mucosa Preserving Approach for Skull Base Surgery - <b>Vishwaraj Ratha</b>
0824 - 0830 hrs	Transnasal endoscopic repair of CSF Rhinorrhoea: a gold standard option – <b>Ashok Nirala</b>
0830 - 0836 hrs	Endoscopic repair of CSF Rhinorrhea – A case series of 20 patients at a tertiary centre - <b>Shiwani Anand</b>
0836 - 0842 hrs	Evolution of Endoscopic Endonasal Approaches in comparison with supraorbital keyhole approach for Anterior Skull-Base Lesions - <b>Biju Bhadran</b>
0842 - 0850 hrs	Endonasal endoscopic approach for tuberculum-sellae meningioma: Our experience - <b>Suresh Sankhla</b>
0850 - 0900 hrs	Discussion
<b>0900 – 1000 hrs</b>	<b>Past Presidents Symposium</b> Chairpersons: <b>Manas Panigrahi, K Sridhar, Suresh Nair</b> Moderator:
0905 – 0915 hrs	Future of Neurosurgery – <b>Daljit Singh</b>
0915 – 0925 hrs	Endoscopic management of chronic subdural hematoma – <b>YR Yadav</b>
0925 – 0935 hrs	Pioneers of the mind: A history of Neurosurgery from Susruta to today – <b>VP Singh</b>
0935 – 0945 hrs	Reality and perception – lines do matter – <b>Lokendra Singh</b>
0945 – 0955 hrs	My Book of Neurosurgery – <b>Atul Goel</b>
0955 – 1000 hrs	Photograph

<b>1000 – 1045 hrs</b>	<b>IAN Presidential Oration</b> Chairs: <b>Manas Panigrahi, K Sridhar, V.V. Nadkarni</b> Moderator:
1000 – 1003 hrs	Introduction of the Speaker
1003 – 1035 hrs	Oration - <b>Lakshminarasimhan S</b>
1035 – 1040 hrs	Felicitation, Photograph
<b>1045 – 1125 hrs</b>	<b>Jacob Chandy Oration</b> Chairs: <b>Manas Panigrahi, YR Yadav, KVR Sastry, JS Kathpal</b>
1045 – 1048 hrs	About Jacob Chandy – <b>V Rajshekhar</b>
1048 – 1050 hrs	Introducing the Orator – <b>Manas Panigrahi</b>
1050 – 1120 hrs	Oration - <b>Scientific Curiosity in Neurosurgery: Travelling the Road for 35 Years - Kenan Arnatovic</b>
1120 – 1125 hrs	Felicitation, Photograph
<b>1125 – 1145 hrs</b>	<b>Lecture President Brasil Society</b> Chairs: <b>Manas Panigrahi, Sumit Sinha, S. N. Madheria</b> Moderator:
1125 – 1140 hrs	Invited Society President's Lecture - <b>Andre Giacomelli</b>
1140 – 1145 hrs	Felicitation, Photograph
<b>1145 – 1220 hrs</b>	<b>Special Lectures</b> Chairs: <b>K Sridhar, BK Misra, P Sarat Chandra</b> Moderator:
1145 – 1200 hrs	<b>NSI Presidential Lecture – Manas Panigrahi</b>
1200 – 1210 hrs	<b>CNS Lecture – Keyhole Surgery: From the Cadaver Lab to the OR - Garni Barkhoudarian</b>
1210-1220	<b>Guest Lecture - Non invasive intracranial monitoring for moderate/Severe TBI- Luis Robson</b>
<b>1220 - 1230 hrs</b>	<b>INTERLUDE 4-</b> The Complete Neurosurgeon... start your Biography _ *NOW* _...!!! - <b>Jogi Pattisapu</b>

<b>1230 – 1300 hrs</b>	<b>SPECIAL LECTURE: General VP Malik</b> Chairs: <b>Manas Panigrahi, Vasant Dakwale, JS Kathpal</b> Moderator:
1230 – 1233 hrs	Introduction of the Speaker – <b>Deepak Jain</b>
1233 – 1300 hrs	<b>Special Lecture - Gen. VP Malik, PVSM, AVSM, Former Chief of Army Staff, Indian Army</b>
1305 – 1305 hrs	Felicitation, Photograph

<b>1300 - 1400 hrs</b>	<b>LUNCH</b>
------------------------	--------------

<b>1400 – 1530 hrs</b>	<b>PRESIDENTIAL SYMPOSIUM: Live Musical workshop on Wellness in Neurosurgery</b> Moderator: <b>V Rajshekhar, R C Mishra, J S Kathpal</b>
1400 – 1405 hrs	Introduction – Moderators
1405 – 1450 hrs	Workshop on Creativity and Mental Health – <b>Sunita Bhuiyan</b>
1450 – 1455 hrs	Introduction of the Speaker
1455 – 1518 hrs	You have landed! Have you arrived? – <b>Thimappa Hegde</b>
1518 – 1530 hrs	Concluding Remarks

<b>1530 – 1600 hrs</b>	<b>DEBATE 2: Neurosurgical Education in India: Towards A Uniform Curriculum</b> Judge: <b>V Rajshekhar</b>
	Neurosurgical Education in India should move towards a Uniform 6-year curriculum – <b>SS Kale</b>
	Neurosurgical Education in India should continue both the 3-year and 6-year curricula – <b>R Raghavendran</b>

<b>1600 – 1700 hrs</b>	<b>SPECIAL GUEST LECTURES</b> Chairs: <b>Manas Panigrahi, Dwarakanath Srinivas, Sarala Menon</b> Moderator:
1600 – 1615 hrs	Evolution of skull base approaches - <b>Torstein R Meling</b>
1615 – 1630 hrs	Tailored approach to low grade glioma treatment - a nationwide network protocol - <b>Ulrich-W Thomale</b>
1630 - 1645 hrs	Molecular Classification or predictive signatures of Meningiomas - <b>Akash Patel</b>

1650 – 1700 hrs	<b>INTERLUDE 5-</b> From operating room to public health care: the role of neurosurgeons in shaping national neurosurgical access - <b>Marcos Wagner</b>
<b>1700 – 1830 hrs</b>	<b>SANS SYMPOSIUM:</b> Chairs: <b>Manas Panigrahi, Atul Goel, SS Kale</b> Moderator: <b>Paritosh Pandey</b>
1700 – 1708 hrs	Introduction & Welcome – <b>Manas Panigrahi</b>
1710 – 1720 hrs	Innovative Approaches in Establishing an Advanced Endoscopic Neurosurgical Practice in a Resource-Limited Setting - <b>Amit Thapa Nepal</b>
1720 – 1730 hrs	Innovative approaches, alternatives at its simplest, for better outcomes in neurosurgery - <b>Surath Munasinghe Sri Lanka</b>
1730 – 1740 hrs	Empowering women in Neurosurgery in India – overcoming challenges with enthusiasm and resilience– <b>Suchanda Bhattacharya</b>
1740 – 1750 hrs	Low-Grade Gliomas in the Molecular Era: New Insights and Evolving Practices - <b>Yam Roka Nepal</b>
1750 – 1800 hrs	Natural course of CTS, post op neurophysiological recovery, and my own technique - <b>Saman Pushpakumara</b>
1800 – 1810 hrs	Neurosurgical burden, Challenges, and updates of Neurosurgical services in Bhutan - <b>Sonam Bhutan</b>
1810 – 1820 hrs	Spinal Dysraphism - <b>Nirukshan Jayaweera</b>
1820 – 1830 hrs	Discussion

13th December 2025

Hall B

<b>0800 – 1000 hrs</b>	<b>Free Paper Session: Vascular</b> Chairs: <b>KK Bansal, Malay Chakraborty, Vinod Kumar Rai</b> Moderator:
0800 – 0806 hrs	Outcome of Microsurgical Clipping in Anterior Circulation Aneurysms: A Tertiary Centre Experience - <b>Suryanarayan Swain</b>
0806 – 0812 hrs	Vasospasm in Aneurysmal Subarachnoid hemorrhage - <b>Alan K Varughese</b>
0812 – 0818 hrs	Brainstem cavernous malformations: experience at a tertiary care hospital - <b>Yenugu Ravinder Reddy</b>
0818 – 0824 hrs	Microsurgical Management of CNS Cavernomas: A Retrospective Analysis – <b>Vatsal Kamdar</b>
0824 – 0830 hrs	Direct Superior Ophthalmic Vein Approach for Difficult to treat Carotico-Cavernous Fistulas: A Case Series - <b>Nadasha M Babu</b>
0830 – 0836 hrs	Clinical outcomes of endovascular management of Carotico-Cavernous Fistula - <b>A R Vishal Varma Bathina</b>
0836 – 0842 hrs	Management of Complex AVMs – The Solution Is Going “Hybrid” - <b>Aravindh Kumar A</b>
0842 – 0850 hrs	Epidemiological Profile of Patients with Cerebral Aneurysms Treated by Endovascular Approach at a Reference Center in Curitiba, Brazil - <b>Roberth de Jesus Carvalho</b>
0850 – 0858 hrs	Aneurysms sans SAH - diagnostic approach & management dilemma – <b>K K Bansal</b>
0858 – 0906 hrs	Surgical update in the management of Cerebral Aneurysms in the endovascular era: Lessons learnt from years of private practice - <b>Malay Chakraborty</b>
0906 – 0912 hrs	Early minimally invasive microscopic hematoma evacuation: A promising low-cost approach for improved functional recovery in large basal ganglia hematomas - <b>Sudharsan Phagalvarthi Vijayaraghavan</b>
0912 – 0918 hrs	Management of Spinal Vascular Malformations: a series of 48 patients – <b>Rishabh Malik</b>
0918 – 0924 hrs	Current guidelines for Surgical Management of Haemorrhagic stroke - <b>PK Sahoo</b>
0924 – 0930 hrs	Long-term clinical and radiological outcomes of 248 patients following various modalities of management of Arteriovenous malformations: an institutional experience - <b>Vimal Britto</b>

0930 – 0936 hrs	Giant solid Haemangioblastomas: Step by step resection strategies - <b>Anil Kumar Sharma</b>
0936 – 0944 hrs	Clipping of giant Aneurysms - Is bypass always needed - <b>P Sarat Chandra</b>
0944 – 0952 hrs	Clinical and Radiological Correlation of Moyà Moyà Disease patients treated by Revascularisation procedure – <b>Siddhartha Ghosh</b>
0952-1000	<b>Discussion</b>

<b>1300 – 1330 hrs</b>	<b>NSI – WINS Session</b>
------------------------	---------------------------

<b>1300 – 1400 hrs</b>	<b>LUNCH</b>
------------------------	--------------

<b>1400 – 1530 hrs</b>	<b>Free Paper Session: Functional &amp; Epilepsy</b> Chairs: <b>Malla Bhaskara Rao, Ravi Gopal Varma, Archana Verma</b> Moderator:
1400 – 1406 hrs	Structural Alterations in Tremor Networks Following Thalamic Ablation - <b>Sonal Chauhan</b>
1406 – 1412 hrs	Electrode Position and Clinical Outcomes in Globus Pallidus Deep Brain Stimulation for Dystonia: A Retrospective Analysis of Motor and Nonmotor Domains - <b>Yenugandula Vishal Bharath</b>
1412 – 1418 hrs	Deep Brain Stimulation and Radiofrequency lesioning: Making impossible possible - <b>Shrey Jain</b>
1418 – 1424 hrs	Criteria for dbs selection in Parkinson’s patient - <b>Faaiz Alam</b>
1424 – 1430 hrs	Deep brain stimulation for dystonic tremor - <b>Tanmoy Maiti</b>
1430 – 1438 hrs	Transforming Movement Disorder Care: Four Years of Experience with MRgFUS – <b>K Ragurajaprakash</b>
1438 – 1446 hrs	Newer Targets in Movement Disorders and Psychiatric Disease - <b>Gurneet Singh Sawhney</b>
1446 -1452 hrs	Stereotactic Biopsy Under Local Anaesthesia: A Decade’s Experience in Management of Intracranial Lesions - <b>Sumit Sahebrao Awasarmol</b>
1452 – 1458 hrs	CT-Guided CRW Frame–Based Stereotactic Brain Biopsy: A Single-Centre Analysis of Yield, Predictive Factors and Safety Profile - <b>Aishwarya EM</b>
1458 – 1504 hrs	Comparison of a Novel Single-Camera Navigation System (Cartosense C75) with the Dual-Camera Stealth Station S7™: A Randomized Crossover Pilot Study - <b>Gopalakrishnan Madhavan Sasidharan</b>

1504 – 1510 hrs	Bulbocavernosus Reflex vs Anal Motor Evoked Potentials for predicting post operative bladder dysfunction; is the specificity less in females? - <b>Abhishek Patel</b>
1510 – 1516 hrs	A Study of Electroencephalographic Patterns in a Diverse Dementia Cohort from a Tertiary Care Centre - <b>Ammanabrolu Sreekavya</b>
1516 – 1530 hrs	<b>Discussion</b>
<b>1530 – 1600 hrs</b>	<b>DEBATE 3: MRgFUS for Parkinsons - is it just a more expensive way to do lesioning?</b> Judge: <b>Milind Deogaonkar</b>
	For – <b>Ravi Gopal Varma</b>
	Against – <b>K Madeeswaran</b>
<b>1600 – 1730 hrs</b>	<b>Free Paper Session: Miscellaneous / Special Topics</b> Chairs: <b>Hemant Bhartiya, Ajit Sinha, Ankit Gupta</b> Moderator:
1600 – 1606 hrs	Neurosurgery at war front during Indo Pak war 2025 - <b>Shikhil Uppal</b>
1606 – 1612 hrs	Audacity vs. Hierarchy on the Road Taken Less - <b>Dhandapani SS</b>
1612 – 1618 hrs	Paradigm shift in Neurosurgical education- Addressing the Steep Learning curve in Percutaneous Retrogasserian Glycerol Rhizotomy for Trigeminal Neuralgia - Neurosurgery Academy and Research Foundation learning models - <b>Ashwin R</b>
1618 – 1624 hrs	Strategy for the Brain-Gut Kidney Axis Dysfunction in brain insults with its pathogenesis - <b>Rajiva Kumar Tiwari</b>
1624 – 1630 hrs	Cerebral Phaeohyphomycosis: Diagnostic and treatment challenge in tier 4 cities - <b>Singh Deepa</b>
1630 – 1638 hrs	Defining Unnecessary Surgery - <b>Hemant Bhartiya</b>
1638 – 1646 hrs	Intacranial Hypotension Management Complication - Lessons Learnt - <b>Dilip Kiyawat</b>
1646 – 1652 hrs	Sailing in the Dark: Navigating Hemorrhagic Ventricles in Third Ventriculostomy - <b>Anand Sharma</b>
1652 – 1658 hrs	Pancerebellar Syndrome: Unmasking Treatable Causes Behind a Commonly Neglected Presentation - <b>Archana Verma</b>
1658 – 1704 hrs	Determinants of Infection Associated with Conventional External Ventricular Drain Placement and Management: Insights from a Retrospective Review - <b>Sarthak Mehta</b>

1704 – 1710 hrs	Comparison of Suturable and Non-Suturable Dural Substitutes in Neurosurgery - <b>Kathan Kothari</b>
1710 – 1718 hrs	Bilateral Trans-Cribriform plate CSF Rhinorrhoea – Preservation of Olfaction is paramount: Our new Approach - <b>Ajit K Sinha</b>
1718 – 1730 hrs	Discussion

<b>1730 – 1830 hrs</b>	<b>Case Based Discussion</b> Moderator: <b>Sachin Borkar</b>
<b>1730-1750</b>	<b>Case 1: Skull Base Vascular</b> Presenter: Shashwat Mishra Panelsists: Daljit Singh, Vernon Velho, Sunil Furtado, Torstein R Meling,
<b>1750-1810</b>	<b>Case 2: Spine</b> Presenter: Karthigeyan M Panelists: JKBC Parthiban, SS Kale, Vijaysekhar, Muthukumar N
<b>1810-1820</b>	<b>Case 3: Brain tumour</b> Presenter: Anant Mehrotra Panelists: Dwarkanath Srinivas, Vikram Karmarkar, Amitabha Chanda, Akash Patel

**13th December 2025**

**Hall C**

<b>0800 – 1000 hrs</b>	<b>Free Paper Session: Spine</b> Chairs: <b>JKBC Parthiban, Y Vamsi Krishna, Abhishek Songara</b> Moderator:
0800 – 0806 hrs	Evaluation of quality of life in MIS TLIF using radiological assessment of MFI (Muscle Fat Index): A prospective study - <b>Sagnik Roy</b>
0806 – 0812 hrs	Modified Taylor Retractor: A simple alternative to traditional retractors for single level lumbar spine procedures - <b>Soumya Ranjan Rana</b>
0812 – 0818 hrs	Cilatazole in Neurogenic Claudication due to Lumbar Canal Stenosis - <b>Apoorva Pauranik</b>
0818 – 0824 hrs	The Continuing Relevance of Yasargil’s Lumbar Microdiscectomy - <b>Anil Pande</b>
0824 – 0830 hrs	Study of the Relationship Between Lumbar Disc Herniation and Lumbar Segmental Instability at a Tertiary Healthcare Centre - <b>Siddharth Jindal</b>
0830 – 0836 hrs	Tandem spinal stenosis: Predicting outcomes using Machine learning from a 12-year experience at a tertiary care centre - <b>Het Shah</b>

0836 – 0842 hrs	Early indicator of lumbar spine surgery after occupational back injury: Finding from a prospective study - <b>Ankur Banerjee</b>
0842 – 0850 hrs	Approach to managing random stenosis in degenerative spine – <b>JKBC Parthiban</b>
0850 – 0858 hrs	Ozone-nucleolysis for Lumbar disc herniation - <b>Lokendra Singh</b>
0858 – 0906 hrs	Unilateral Biportal Endoscopic Lumbar Decompression: Interim Outcomes and Critical Analysis - <b>Yerramneni Vamsi Krishna</b>
0906 – 0912 hrs	Minimally Invasive Transforaminal Lumbar Interbody Fusion: Clinical Outcomes and Perioperative Advantages – A Prospective Series - <b>Harish Naik</b>
0912 – 0918 hrs	Endoscopic assisted Spinal tumor excision - our experience – <b>Vikram Muthusubramanian</b>
0918 – 0924 hrs	UBE for lumbar degenerative disease: A new frontier - <b>Edmond Jonathan Gandham</b>
0924 – 0930 hrs	Surgical Transition and Technical Pearls: Early OLIF Experience Compared to MIS-TLIF - <b>Arif</b>
0930 – 0936 hrs	Minimally Invasive Spine Surgery: A comparative study to find patient selection criteria and technical nuances - <b>Suyash Singh</b>
0936 – 0942 hrs	Pain Blocks for Spine related pathologies for Neurosurgeon - <b>Alok Agrawal</b>
0942 – 0948 hrs	Challenges of Redo Spinal Surgeries for Recurrent Lesions & Way Forward! - <b>Asha Bakshi</b>
0944 – 1000 hrs	Discussion

<b>1300 - 1400 hrs</b>	<b>Lunch</b>
------------------------	--------------

<b>1400 – 1530 hrs</b>	<b>Free Paper Session: History in Neurosciences</b> Chairs: <b>Apoorva Pauranik, LN Tripathy, Monika Porwal</b> Moderator:
1400 – 1406 hrs	History of Neurosurgery in Indore - <b>Pulak Nigam</b>
1406 – 1412 hrs	Neurological Localisation: Beginning & Evolution - <b>Air Commodore (Dr) Krishan Kumar Yadav</b>
1412 – 1418 hrs	Researching the origins of Neurosurgical Research - <b>Anil Pande</b>
1418 – 1426 hrs	Transition of a Neurosurgeon from Days of LP Needle, Gigli saw, Twist drill, Brain Cannula and Seldinger Needle to Navigation, Robotics and AI - <b>L N Tripathy</b>
1426 – 1434 hrs	History of Clinical Tale Literature in Neurology - <b>Apoorva Pauranik</b>
1434 – 1442 hrs	Col AC Ray: Life and times of Founder Neurosurgeon of Indian Army

1442 – 1450 hrs	"Colonel Harvey Cushing" goes to War: The Journey of a gifted neurosurgeon through the "War to End All Wars"!! - <b>Prof (Brig) Maneet Gill</b>
1450 -1456 hrs	Colonial Echoes and Cognitive Revolutions: A Historical Perspective on Neurosciences in Eastern India and Beyond - <b>Jiwesh Kumar</b>
1456 – 1502 hrs	History of MISS (Minimally Invasive Spine Surgeons) and recent updates - <b>Vijaymahantesh K Pujari</b>
1502 – 1508 hrs	Gamma Knife in AIIMS, Delhi- Past present & future - <b>Deepak Agrawal</b>
1508 – 1514 hrs	The Evolution of Brain Tumor Surgery: From Trephination to Awake Craniotomy
1514 – 1520 hrs	History of evolution of Neurosurgery in Chhattisgarh - <b>Sukirti Chauhan</b>
1520 – 1530 hrs	<b>Discussion</b>

<b>1530 – 1600 hrs</b>	<b>Symposium on Artificial Intelligence in Neuroscience</b> Chairs / Moderators: <b>Amitava Ray, Paritosh Pandey, Asha Bakshi</b>
1524 – 1542 hrs	Statistics at Square 1: the basics of ML, DL, CNN and LLM - <b>Deepak Agarwal</b>
1542 – 1550 hrs	AI applications in neurosurgery and implications on training and publications - <b>Girish Menon</b>
1550 – 1558 hrs	AI in Radiology: chasing crooked shadows - <b>Kalyan Sivasailam</b>
1558 – 1606 hrs	AI in pathology: On the threshold of change - <b>Amitava Ray</b>
1606 – 1614 hrs	AI: what happens when it goes wrong- perils and pitfalls - <b>Subodh Raju</b>
1614 – 1630 hrs	Discussion

<b>1630 – 1830 hrs</b>	<b>Video Session</b> Chairs: <b>Basant Misra, Raghavendran R, Alok Agrawal</b> Moderator:
1630 – 1636 hrs	Anterior Cervical Corpectomy for OPLL - <b>Sachin Borkar</b>
1636 – 1642 hrs	Clipping of Subcallosal (A3) aneurysms - <b>Girish Menon</b>
1642 – 1648 hrs	Surgery for Giant paraclinoidal ICA aneurysm - <b>Vernon Velho</b>
1648 – 1654 hrs	Complex Cerebrovascular Microsurgery - <b>Basant Misra</b>
1654 – 1700 hrs	Flow diversion for a large ICA bifurcation aneurysm - <b>Paritosh Pandey</b>
1700 – 1706 hrs	Carotid Endarterectomy - <b>Roopesh Kumar VR</b>
1706 – 1712 hrs	Microsurgical excision of High grade AVM - <b>Raghavendran R</b>

1712 – 1718 hrs	Surgery for a Grade 3 AVM - <b>Suchanda Bhattacharjee</b>
<b>1718 – 1730 hrs</b>	<b>Discussion</b>
1730 – 1736 hrs	Trans septal endoscopic approach to sella with septal transposition - <b>Adesh Shrivatsava</b>
1736 – 1742 hrs	Anterior interhemispheric approach for craniopharyngioma - <b>Dilip Panikar</b>
1742 – 1748 hrs	Transcavernous approach to paraclinoid pathologies - <b>Dwarkanath Srinivas</b>
1748 – 1752 hrs	Occipital transtentorial approach to Pineal region lesions - <b>Mathew Abraham</b>
1752 – 1800 hrs	TBD - <b>R C Mishra</b>
1800 – 1806 hrs	Surgery for Foramen Magnum Meningioma - <b>Sumit Sinha</b>
1806 – 1812 hrs	Facial nerve preservation in large and giant Vestibular schwannoma surgery - <b>Suresh Nair</b>
1812 – 1818 hrs	Endoscopic choroid plexus fulgration/coagulation - <b>Subodh Raju</b>
1818 – 1830 hrs	Discussion

**13th December 2025**

**Hall D**

<b>0800 – 1000 hrs</b>	<b>Free Paper Session: Neuro Oncology</b> Chairs: <b>Mathew Abraham, Subodh Raju, B. K. Pansey</b> Moderator:
0800 – 0806 hrs	Role of DTI in predicting Neurological Outcomes in Glioma Surgery - <b>Aakanksha Aggarwal</b>
0806 – 0812 hrs	THE role of preoperative inflammatory biomarkers in patients diagnosed with glioma and its correlation with histopathological grading - <b>Vandana Nahata</b>
0812 – 0818 hrs	Impact of Awake mapping on Extent of Resection and Neurological outcomes of Low-grade gliomas: a Systematic Review and Meta-analysis - <b>Sreekanth Velpula</b>
0818 – 0824 hrs	A Minimalist Approach to Awake Craniotomy for Tumors in Eloquent Brain regions - <b>Debabrata Mukhopadhyay</b>
0824 – 0830 hrs	Role of Electrocorticography (ECoG) in Predicting Postoperative Seizures and Guiding Anti-Seizure Medication in Low-Grade Gliomas - <b>Ananthakumar M</b>
0830 – 0836 hrs	Anaesthetic management and perioperative complications of patients undergoing awake craniotomies in Western Rajasthan, India - <b>Manbir Kaur</b>

0836 – 0842 hrs	Deep-Seated Gliomas: Functional and survival outcomes in a low -resource setting - <b>Roshan Kumar Meher</b>
0842 – 0850 hrs	'En-masse' tumor resection strategy for low grade gliomas arising from short arcuate fibers - <b>Atul Goel</b>
0850 – 0858 hrs	Impact of neuro-oncology MDTs- A real world data from a tertiary care hospital in India – <b>Subodh Raju</b>
0858 – 0906 hrs	Lesional correlates, surgical technique and outcomes in Thalamic glioma - <b>Mathew Abraham</b>
0906 – 0912 hrs	Role of advanced neuroimaging (MR diffusion, perfusion, proton spectroscopy) in differentiating low grade gliomas from non neoplastic lesions - <b>Manu Tomar</b>
0912 – 0918 hrs	Utility of Intraoperative Ultrasonogram in Glioma Surgery - <b>Sanjay Raj Kumar Reddy</b>
0918 – 0924 hrs	"May I have your attention please" – Functional Connectomics guided Excision of Gliomas - <b>Abhirama Chandra Gabbita</b>
0924 – 0930 hrs	The utility of re-surgery in the multidisciplinary management of recurrent gliomas - <b>Arla Sai Varsha</b>
0930 – 0936 hrs	Mapping the Mind: Preserving Cognitive Function Through Intraoperative CCEPs Monitoring of the Frontal Aslant Tract in glioma surgeries - <b>Praburaj AR</b>
0936 – 0942 hrs	Evaluation of Intraoperative Sensitivity and Specificity of Fluorescein in Intra-Axial Brain Tumor Excision Surgery - <b>Dhairi Boghani</b>
0942 – 0948 hrs	Evaluation of efficacy of sodium Fluorescein in excision of high grade glioma: A Observational comparative Study - <b>Vaibhavi</b>
0944 – 1000 hrs	<b>Discussion</b>

<b>1300 - 1400 hrs</b>	<b>Lunch</b>
------------------------	--------------

<b>1400 – 1545 hrs</b>	<b>Free Paper Session: Skull Base</b> Chairs: <b>Manjul Tripathi, KK Bansal, Varun Katariya</b> Moderator:
1400 – 1406 hrs	A Critical Review of Suprasellar Meningiomas: Clinical Profile, Operative Nuances and Surgical Outcomes - <b>Ramkumar V</b>
1406 – 1412 hrs	Transglabellar approach for resection of anterior skull base meningioma - <b>Tanmay Trivedi</b>
1412 – 1418 hrs	Charting the Untraveled Path: Endoscopic Transorbital Approach (TONES), Early Experience and Lessons Learned - <b>Deepak Bhangale</b>
1418 – 1424 hrs	Combined Transcavernous Transpetrous approach for multicompartments lesions - <b>Anant Mehrotra</b>

1424 – 1430 hrs	Trans pterygoid approach – operative nuances and lessons learnt - <b>Apinderpreet Singh</b>
1430 – 1438 hrs	Complications of skull base tumor surgery - <b>Aakash Patel</b>
1438 – 1446 hrs	Endoscopic Posterior Fossa Surgery - <b>Garni Barkhoudarian</b>
1446 -1452 hrs	Microsurgical management of Craniocervical Junction Meningiomas: Our Experience - <b>Mayank Chakraborty</b>
1452 – 1458 hrs	Surgical strategy for Jugular Foramen region tumours - <b>Survendra Kumar R, Rai</b>
1458 – 1504 hrs	Salvageable factors for facial nerve and hearing preservation in acoustic Neuroma surgery - <b>KK Bansal</b>
1504 – 1510 hrs	Functional preservation of facial nerve in large vestibular schwannomas: Strategies to optimise facial nerve outcomeIs total excision counter-productive? - <b>Sachin Borkar</b>
1510 – 1516 hrs	Expanding Horizons: Endoscopic Endonasal Approaches for Pediatric Skull Base Pathologies – A Single-Center Experience – <b>R Gokulvijay</b>
1516 – 1522 hrs	A Novel Low Cost Technique for Reducing CSF Leak Rates in Retromastoid Craniotomies - <b>Hemanth Vupputuri</b>
1522 – 1530 hrs	Black swans of skull base Radiosurgery: Don't get fooled by randomness - <b>Manjul Tripathi</b>
1530 – 1545 hrs	Discussion

<b>1545 – 1645 hrs</b>	<b>Symposium on Armed Forces Neurosurgery</b> Chairs: <b>Brig PK Sahoo, Brig SP Gorthi</b> Moderator: <b>Brig Maneet Gill</b>
1550 – 1558 hrs	The Journey and The Journeys as a Regimental Medical Officer: Snippets from Early Military Life of A Neurosurgeon - <b>Brig Manish Sharma</b>
1558 – 1606 hrs	"Where Even Eagles Don't Dare": Survival, Challenges and Evacuation from Extreme High Altitude Areas - <b>Lt Col Ajit Singh</b>
1606 – 1614 hrs	"BLADES OF WAR"; Combat Surgery When Tools Are Few and The Need Great - <b>Col Raj Ratan</b>
1614 – 1622 hrs	"AGNEEPATH": Missile Ballistics Demystified - <b>Brig Manmeet Gill</b>
1622 – 1630 hrs	"A GAME OF CHESS": Changing Lethality and Pattern of Battle Field Injuries with Evolving War Doctrines and Munition - <b>Brig Sudip Kumar Sengupta</b>
1630 – 1638 hrs	AFTER THE GUNS GO SILENT: The Battle Shifts Within - <b>Col Darpan Gupta</b>
1638 – 1645 hrs	Discussion

<b>1645 – 1715 hrs</b>	<b>Art and Neurosciences</b> Chairs: <b>Anil Peethambaram, Alok Mandliya</b> Moderator: Ved Prakash Maurya
	TBD – <b>Peter Lawrence</b>

<b>1715 – 1830 hrs</b>	<b>Free Paper Session - Technology</b> Chairs: <b>Asheesh Tandon, I. D. Chourasiya, Nirav Patel</b> Moderator:
1718 – 1724 hrs	Beyond the Sylvian Fissure: Morphometric Evidence for a New Gold Standard Using the Fix2 Dissect Protocol - <b>Vishal Garg</b>
1724 – 1730 hrs	In pursuit of a Novel scoring system for Tuberculous Meningitis related Hydrocephalus using clinic-radiological parameters aided by Artificial Intelligence - <b>Samir Kumar Kalra</b>
1730 – 1736 hrs	Cartography of the neuraxis a Timeline of Neuronavigation and Image Guided Neurosurgery - <b>Ashish Kanhayalal Yadav</b>
1736 – 1742 hrs	Institute experience in neuronavigation - <b>Prasanth</b>
1742 – 1748 hrs	A comparative assessment of surgical outcome of facial nerve preservation in cerebellopontine angle surgery with and without IONM - <b>Bhavana Chintalapti</b>
1748 – 1754 hrs	Stem Cells and 3D Printing: Advances in Organ Bioengineering - <b>Roberth de Jesus Carvalho</b>
1754 – 1802 hrs	Unleashing the power of Intraoperative ultrasound. Advanced applications - <b>Aliasgar Moiyadi</b>
1802 – 1810 hrs	Artificial intelligence in neurosurgery-applications and implications - <b>Sunil Kumar Gupta</b>
1810 – 1816 hrs	Versatility of 3d Exoscopy in Minimally Invasive Brain and Spine Surgery - <b>Asheesh Tandon</b>
1816 – 1822 hrs	Comparative Predictive Performance of Machine Learning Models and Traditional CT Scores for Enhanced Prognostication in Traumatic Brain Injury - <b>Shashank Singh Baghel</b>
1822 – 1828 hrs	Nuances of Leksell Stereotactic frame Fixation Technique to Improve the Accuracy of Precision Biopsy Procedure – <b>M Saravanan</b>
1828 – 1834 hrs	Accurate localization of intracranial tumours using DICOM Viewer - <b>Karishma Hemanathan</b>
1834 – 1845 hrs	Discussion

**14th December 2025**

## Hall A

<b>0900 - 1130 hrs</b>	<b>Free Paper Session Spine</b> Chairs: <b>Krishna Sharma, Krishan Kumar Yadav, Amit Vyas</b> Moderator:
0900 - 0906 hrs	Spinal epidural lipoma – <b>Shivam Sharma</b>
0906 - 0912 hrs	Endoscopic excision of spinal tumors - <b>Hrushikesh Kharosekar</b>
0912 - 0918 hrs	Surgical management of Myxopapillary ependymoma - <b>Shailendra Deepak Anjankar</b>
0918 - 0924 hrs	Correlating postoperative muscle and long-term functional outcomes with intraoperative muscle motor evoked potential changes in patients with benign intramedullary spinal cord tumors - <b>Ananth P Abraham</b>
0924 - 0930 hrs	Retrospective study of radiological and clinical outcomes in surgical treatment of adolescence idiopathic scoliosis (AIS) in Tertiary Care Centre - <b>Nirav Patel</b>
0930 - 0936 hrs	Vertebral column Resection (VCR) in deformity surgeries: Technique & Challenges - <b>Mukesh Kumar</b>
0936 - 0942 hrs	TBD
0942 - 0950 hrs	Lateral Approach to Cervical Spine: A New Avenue in Handling large Dumb-bell Tumors of Cervical Spine - <b>Amitabha Chanda</b>
0950 - 0958 hrs	Stabilization in spinal bony tumors- concepts and surgical algorithms – <b>Sumit Sinha</b>
0958 - 1006 hrs	Endoscopic Uniportal technique for Ossified Yellow Ligament at Thoracic Spine- <b>Asheesh Tandon</b>
1006 - 1012 hrs	Non Dysraphic Thoraco Spinal Intramedullary Lipoma Of Adult Onset - A Rare Presentation – <b>Prasanth</b>
1012 - 1018 hrs	Effect of use of synthetic versus Biological Dural Graft in Spina Bifida with tethered cord repair - <b>Shreya Raina</b>
1018 - 1024 hrs	Anterior Sacral Meningocele: A Case Series and Surgical Experience – <b>Simon Alexander</b>
1024 - 1030 hrs	High velocity spine injury with Cervicothoracic Spine Trauma – Case series - <b>Feroz Ahamed</b>
1030 - 1036 hrs	Vertebral Fractures in the Elderly - <b>Krishna Sharma</b>
1036 - 1042 hrs	Functional (EQ-5D-5L index score/ EQ VAS) and clinical (Nurick grade) outcomes following surgery for degenerative thoracic compressive myelopathy – <b>Soumya Ranjan Das</b>

1042 - 1048 hrs	Calcified dorsal disc minimal invasive approach – a surgical technique. – <b>Chandrasekhar</b>
1048 - 1054 hrs	Issues & Challenges - Low Back Pain in the Indian Armed Forces – <b>Krishan Kumar Yadav</b>
1054 - 1100 hrs	Evaluation Of outcome in Transpedicular Decompression and Posterior Fixation in Thoracolumbar Pott Spine - <b>Rishabh Dev Dubey</b>
1100 - 1106 hrs	Single-Level Posterior Fixation in Dorsal and Lumbar Pott’s Spine: A Prospective Study of 30 Cases - <b>Soumya Prakash Pradhan</b>
1106 - 1112 hrs	Cracking the SI Joint Pain Enigma: Combined Clinical Provocative Tests, Imaging, and fluoroscopic guided Steroid Injection - <b>Sasank Akurati</b>
1112 - 1130 hrs	<b>Discussion</b>

<b>1130 - 1300 hrs</b>	<b>Indore Symposium</b> Chairpersons: <b>Ashok Nayak, A.K. Chouraiya, Nipun Pauranik</b> Moderator
1130 - 1140 hrs	Indore: Beyond Poha-Jalebi — Tracing the Rise of Neuroscience in the Cleanest City of India - <b>Rakesh Gupta</b>
1140 - 1150 hrs	Endoscopic Endonasal Approach for Pituitary and Skull Base Tumors: A Tertiary Care Experience from SAIMS, Indore - <b>Raghwan Iyengar</b>
1150 - 1200 hrs	Migraine and newer treatment modalities - <b>Monika Bagul</b>
1200 - 1210 hrs	Basilar trunk aneurysms - Our experience - <b>Swati Chinchure</b>
1210 - 1220 hrs	Evolution of Spine surgery at Indore - <b>Paresh Sindhiya</b>
1220 - 1230 hrs	Eye Signs in Neurology - <b>Aveg Bhandari</b>
1230 - 1240 hrs	My journey of Monoportal Endoscopic spine surgery - <b>Rupesh Khatri</b>
1240 - 1250 hrs	Movement Disorder as the Masked Manifestation of Craniopharyngioma: An unexplored entity in neurological practice - <b>Pooja Tataskar</b>
1250 - 1300 hrs	Discussion

<b>1300 hrs Onwards</b>	<b>Valedictory</b>
-------------------------	--------------------

<b>1300 - 1400 hrs</b>	<b>Lunch</b>
------------------------	--------------

**14th December 2025**

**Hall B**

<b>0900 - 1115 hrs</b>	<b>Free Paper Session Vascular</b> Chairs: <b>Y Thirumal, Ravi Mohan Rao, Anita Jagetia</b> Moderator:
0900 - 0906 hrs	Role of Ankle Foot Orthosis in improving locomotion in Stroke survivors: A prospective study - <b>Anupam Gupta</b>
0906 - 0912 hrs	Refining STA-MCA Bypass Mastery in Moyamoya Disease: A Personal Journey of Surgical Evolution with Hemodynamic Validation - <b>Yerragunta Thirumal</b>
0912 - 0918 hrs	Hemodynamic stroke due to total chronic carotid occlusion: A case for revascularization - <b>Srishti Dixit</b>
0918 - 0924 hrs	Recurrent Ischemic Stroke: Socioeconomic and Risk Factor Insights in Rohilkhand area - <b>Abhay Singh</b>
0924 - 0930 hrs	Hospital Course of Acute Ischemic Stroke in Patients with Leukemia: A Retrospective Cross-Sectional Analysis - <b>Eilene Basu</b>
0930 - 0936 hrs	Impact of Activating Stroke Code for Haemorrhagic Stroke: A Necessity for Better Outcome in Patients Attending Emergency Care – An Institutional Experience - <b>Vikas Chandra Jha</b>
0936 - 0942 hrs	A clinical study of factors affecting prognosis following Decompressive Craniectomy for Acute Ischemic Stroke - <b>Darapu Kalyan Reddy</b>
0942 - 0950 hrs	Microsurgical management of intracranial Arteriovenous malformations and multimodal treatment strategies - <b>Ravi Mohan Rao B</b>
0950 - 0958 hrs	Management Of SAH-Our experience over the last 4 decades and lessons for the future neurovascular surgeons - <b>L N Tripathy</b>
0958 - 1006 hrs	Experience in Revascularization for Moyamoya disease: An experience in 378 patients - <b>Paritosh Pandey</b>

**14th December 2025**

**Hall C**

<b>0900 - 1030 hrs</b>	<b>Free Paper Session: Neuro Oncology</b> Chairs: <b>Nigel Peter Symms, Ketan Desai, Alok Agrawal</b> Moderator:
0900 - 0906 hrs	Prognostic significance of IHC markers in Meningioma – An Institutional Study - <b>Nemi Chand Poonia</b>
0906 - 0912 hrs	Epigenomic Insights: Using Methylation Patterns to Forecast Meningioma Recurrence - <b>Manish Kumar</b>
0912 - 0918 hrs	Sphenoid wing meningiomas: Our experience - <b>Burla Chandrashekar</b>
0918 - 0924 hrs	Aggressive WHO grade 1 Meningioma - Our experience based on WHO 2021 classification - <b>Jatin Kumar</b>
0924 - 0930 hrs	Risk factor evaluation using class algorithm in Intracranial Meningioma - <b>Soham Kundu</b>
0930 - 0936 hrs	Atypical meningioma - our experience in single institute - <b>Ashu Kumar</b>
0936 - 0942 hrs	Role of Electroencephalography (EEG) in Predicting Postoperative Seizures and Guiding Anti-Seizure Medication in Low-Grade Gliomas - <b>Ananthakumar M</b>
0942 - 0950 hrs	Lumbo-sacral plexus neurogenic tumors-an experience of 65 symptomatic surgically treated cases - <b>Ketan Desai</b>
0950 - 0958 hrs	Interhemispheric transcallosal approach to lateral and third ventricular tumours: Lessons learnt and complications avoidance - <b>Nigel Peter Symms</b>
0958 - 1004 hrs	Colloid Cyst: An Institutional Experience - <b>Dinesh D Menon</b>
1004 - 1010 hrs	Various Factors Affecting the Third Ventricle Colloid Cysts surgical outcome- A Institutional Analytical study- <b>M Saravanan</b>
1010 - 1016 hrs	Surgery of Pineal Region tumors: our experience with long-term follow-up - <b>Bharat Jain</b>
1016 - 1022 hrs	Cerebellopontine Angle Tumor Surgery in the Sitting Position Without Intraoperative Neuromonitoring: Safety and Outcomes in a Resource-Limited Setting - <b>Shivam Sharma</b>
<b>1022 - 1030 hrs</b>	<b>Discussion</b>

<b>1030-1230 hrs</b>	<b>Free Paper Session Trauma</b> Chairs: <b>Chinmay Dash, Avinash Sharma, Ashish Bagdi</b> Moderator:
1030 – 1036 hrs	Management strategies for Odontoid fractures - <b>Somil Jaiswal</b>
1036 – 1042 hrs	Role of apolipoprotein in prognosis of traumatic brain injury patients - <b>Mh Abdul Rahman</b>
1042 – 1048 hrs	Management of CV Junction Injuries - <b>DK Vatsal</b>
1048 – 1054 hrs	Recent concepts for management of Traumatic odontoid fracture - <b>Tamajyoti Ghosh</b>
1054 – 1100 hrs	The Rare Presentation of Traumatic Intracranial Hypotension - <b>I Thanzil Ahmed</b>
1100 – 1106 hrs	Use of cisternal drains as adjunct in transcranial repair for CSF rhinorrhea - <b>Ashwin Pai V</b>
1106 – 1112 hrs	Neurosurgeon’s Perspective on Post Head Injury Psychiatric Problems - <b>Sanjay Sharma</b>
1112 – 1120 hrs	Patient-Specific 3D Bone Cement Cranioplasty – Our Technique - <b>Chinmaya Dash</b>
1120 – 1128 hrs	Platelet rich plasma in traumatic brain injury- A pilot study – <b>TE Sathish Kumar</b>
1128 – 1134 hrs	Predictive Factors for Morbidity and Mortality in 100 Cases of Acute Subdural Hematoma, in a tertiary care center - <b>Basavaraj T Badadal</b>
1134 – 1140 hrs	Leveraging UCH-L1 and BDNF as a Point of Care in Traumatic Brain Injury - <b>Pawan Kumar Verma</b>
1140 – 1146 hrs	Octogenarian with unusual cause of Mild Traumatic Brain Injury - <b>Mohana Sasank Deevi</b>
1146 – 1152 hrs	The conundrum of ventricular dilatation following decompressive Craniectomy is ventriculoperitoneal shunt the only panacea - <b>Kaustuv Banerjee</b>
1152 – 1158 hrs	Autologous Bone Flap Cranioplasty After Decompressive Craniectomy: A Study on Timing, Technique, and Outcomes - <b>Aditya Singh</b>
1158 – 1204 hrs	Modified Open Book Bilateral Fronto-Temporo-Parietal (FTP) Craniectomy – M-N Technique: Time-Efficient, Position-Stable, and Exposure-Enhanced Approach in Severe Traumatic Brain Injury - <b>Chintan Popat</b>
1204 – 1210 hrs	Gcs 13-15, how often they bleed, clinical variables & algorithm - a tertiary centre experience – <b>P Anand Reddy</b>
1210 – 1216 hrs	A comparison between Bifrontal & FTP decompressive craniectomy technique and a novel innovated technique for cranioplasty - <b>Bojja Venkata Siva Rama</b>
<b>1216 – 1230 hrs</b>	<b>Discussion</b>

**1300 hrs Onwards**      **Valedictory in Hall A**

**1300 - 1400 hrs**      **Lunch**

**14th December 2025**

**Hall D**

<b>0900-1115 hrs</b>	<b>Free Paper Session - Congenital, Hydrocephalus, Infection, Miscellaneous</b> Chairs: <b>Vikram Karmarkar, Suhas Udaykumaran, Dinesh Choukase</b> Moderator:
0900 – 0906 hrs	Peripheral neuropathy involvement an unusual presenting complaint of Immunoglobulin G4-related disease (IgG4-RD) - <b>Pratibha Prasad</b>
0906 – 0912 hrs	The Trigeminal Lympho-Glymphatic Coupling System (TLGCS): A Brainstem Bottleneck Linking Clearance Failure, Chronic Pain, and Neurodegeneration - <b>Purusharth Kumar Sharma</b>
0912 – 0918 hrs	Understanding role of brain perfusion as a predictor of outcome in Tubercular meningitis with Hydrocephalus - <b>Samir Kumar Kalra</b>
0918 – 0924 hrs	Cerebrospinal Fluid and Blood Presepsin in the Diagnosis of Healthcare-Associated Ventriculitis/Meningitis: A Prospective Observational Study - <b>Anirudh Rao</b>
0924 – 0930 hrs	Neonatal brain abscess a surgical series - <b>Joel Francis</b>
0930 – 0936 hrs	Ventriculoperitoneal Shunt -How to make it safe? – <b>Saranraj MK</b>
0936 – 0942 hrs	Reverse Brain Herniation following CSF Diversion in a two year old child – Case Report - <b>Kshitij Raj Mahajan</b>
0942 – 0950 hrs	Broaden consciousness in hydrocephalus care - Its not just surgery - <b>Ulrich-W Thomale</b>
0950 – 0958 hrs	Secondary ETV in adults - <b>Vikram Karmarkar</b>
0958 – 1006 hrs	Chaos to Flow: Categorization, Nomenclature to Problem Mapping: Unified Interdisciplinary Language in Craniosynostoses - <b>Suhas Udaykumaran</b>
1006 – 1012 hrs	A Prospective Study to Evaluate the Role of Endoscopic Third Ventriculostomy in Pediatric Patients with Obstructive Hydrocephalus - <b>Managoli Chinmay Arun</b>
1012 – 1018 hrs	Evaluation of risk factors for cerebrospinal fluid over drainage after Ventriculoperitoneal Shunting and Endoscopic Third Ventriculostomy in our institution - <b>Varun Prakash</b>

1018 – 1024 hrs	Endoscopic Third Ventriculostomy in children less than 2yrs –An Institutional Experience - <b>Surendran</b>
1024 – 1030 hrs	Rare and Unusual Complications of Ventriculoperitoneal Shunt: A Case Series - <b>Ayush Keshav Singhal</b>
1030 – 1036 hrs	A Retrospective Study of Encephalocele Management: Institutional Experience - <b>Sajag Kumar Gupta</b>
1036 – 1042 hrs	Histology Over Serology: Pediatric IgG4-RH and the Limits of Conventional Workup — A Case Based Literature Synthesis - <b>Bharat K Subramanya</b>
1042 – 1048 hrs	Clinical outcomes after untethering surgery for tethered cord syndrome: An Institutional experience - <b>Y Bhargav Vamasi Krishna</b>
1048 – 1054 hrs	Delayed But Not Denied: Promising Surgical Outcomes in Spinal Dysraphism Presenting After 5 Years of Age - <b>Avinash Sharma</b>
1054 – 1100 hrs	IONM for Motor Function in Pediatric Brain and Spine Tumors: Experience from 57 Cases at a Tertiary Neuro-Oncology Centre - <b>Prakash Shetty</b>
<b>1100 – 1115 hrs</b>	<b>Discussion</b>

<b>1115 - 1300 hrs</b>	<b>Free Paper Session: Technology</b> Chairpersons: <b>Vernon Velho, Mukesh Johari, Vijay Parihar</b> Moderator
1115 – 1121 hrs	Occipital Condyle screw insertion and craniocervical realignment and fixation under Neuronavigation and Mazor X Robotic Guidance System - <b>Peddini Ram Charan</b>
1121 – 1127 hrs	Integrating MR Angiography as sole radiological tool and SPECT Perfusion Imaging in Surgical Evaluation of Moyamoya Disease: A Study of Diagnostic Utility, Collateral Assessment, and Outcome Correlation - <b>G Adarsha</b>
1127 – 1133 hrs	Seeing the Unseen: DCE-MRI Predicts Pituitary Adenoma Consistency Before Surgery - <b>Pooja Choudhary</b>
1133 – 1139 hrs	SPECT scan in Craniosynostosis - <b>Abhijit Acharya</b>
1139 – 1147 hrs	Artificial Intelligence in Degenerative Lumbar Spine Management: Machine Learning Models for Data-Driven Clinical Decision-Making - <b>Komal Prasad Chandrachari</b>
1147 – 1155 hrs	Robotics in Neurosurgery: The Way Forward – A One-Year Experience with 100 Cases - <b>Vernon Velho</b>
1155 – 1201 hrs	Role of Connectomics in mapping the trajectory for Intraxial Tumors - <b>Nithin V</b>
1201 – 1207 hrs	Assessing Intracranial Vessels Using High-Resolution Vessel Wall Imaging MRI and Intraoperative Appearance in Cases of Intracranial Aneurysms – An Institutional Study - <b>Binita Dholakia</b>

1207 – 1213 hrs	Portable High Definition Exoscope and Microneurosurgery - <b>Bhanu Pratap Singh Chauhan</b>
1213 – 1219 hrs	Role of Exoscope in Neurosurgery - <b>N Prathima</b>
1219 – 1225 hrs	Application of Cerebral oximetry in Neurosurgical patients - First of a kind surgery - <b>Priya Bajpai</b>
1225 – 1231 hrs	Enhancing Accuracy in Spinal Instrumentation with Loop-X Intraoperative 3D Navigation - <b>Suraj Gopal</b>
1231 – 1237 hrs	Role of Newer Robotic Technologies in Neurosurgery - <b>Mazharkhan Mulla</b>
<b>1237 – 1300 hrs</b>	<b>Discussion</b>

<b>1300 hrs Onwards</b>	<b>Valedictory in Hall A</b>
-------------------------	------------------------------

<b>1300 - 1400 hrs</b>	<b>Lunch</b>
------------------------	--------------

#### NSI FORUMS

<b>FRIDAY 12<sup>th</sup> December</b>	<b>1300-1330</b>	<b>NSI-WINS FORUM- Suchanda B</b>	<b>Venue - TBD</b>
	<b>1300-1330</b>	<b>LEGAL CELL – Mathew Abraham</b>	<b>Venue - TBD</b>

<b>SATURDAY 13<sup>th</sup> December</b>	<b>1830-1930</b>	<b>YNF &amp; PPF – Subodh Raju , Anil Sharma and Jayesh Sardhara</b>	<b>Hall A</b>
--	------------------	--	---------------

#### ENRICH LOUNGE

#### Friday – 12th December 2025

<b>1400 - 1530 hrs</b>	<b>Learn Video Editing</b>
<b>1530 - 1630 hrs</b>	<b>Aim &amp; Shoot – Photography as a hobby</b>
<b>1630 - 1730 hrs</b>	<b>Advocacy – Folic Acid Fortification Project</b> <i>(Chairs: VP Singh, Daljit Singh; Special Guest: Jogi Pattisapu)</i>

#### Saturday – 13th December 2025

<b>0730 - 0830 hrs</b>	<b>Yoga for everyone</b>
------------------------	--------------------------

<b>1100 - 1200 hrs</b>	<b>Relax – Heal your body and Mind</b>
<b>1400 - 1500 hrs</b>	<b>Art and neuroscience – Medical Illustration</b> (Coordinator: Ved Prakash Maurya)
<b>1500 - 1630 hrs</b>	<b>The Writing Hand</b> (Coordinator: Manjul Tripathi)

**Sunday – 14th December 2025**

<b>1000 – 1200 hrs</b>	<b>Nurses Training</b> (Medtronic program)
------------------------	--

**NSI Innovators Award Posters**

<b>INN 1</b>	Multipurpose Dynamic Wheel Weight Suspensor Device - <b>Vijay Kumar Gupta</b>
<b>INN 2</b>	Development of advanced Neuroimaging Analytics software "NEUROVIZ®"- A collaborative project with SINE IIT Bombay - <b>Apurva Prasad</b>
<b>INN 3</b>	Totally Endoscopic Neurosurgery Through Sub- galeal Corridor - <b>TE Sathish Kumar</b>
<b>INN 4</b>	A Multiutility Retractor System for Safer and More Effective Cranial and Spinal Exposure - <b>Mahesh Ramola</b>
<b>INN 5</b>	Practical Ultramicroneurosurgical Innovations - <b>Iype Cherian</b>
<b>INN 6</b>	Low-Cost Subdural Catheter Based ICP Monitoring System: An Innovative Approach for Resource-Constrained Settings - <b>Shameem Ahmed</b>
<b>INN 7</b>	Atraumatic Bullet and Capsule Modified Technique (ABCMT) of tunnelling for placement of Ventriculo-Peritoneal Shunt - <b>Wajid Nazir</b>
<b>INN 8</b>	Reinventing Destandau’s Endoscope: Bridging Microscopic and Biportal Fusion in a Cost-Effective MIS-TLIF Technique - <b>Ashutosh Kumar</b>
<b>INN 9</b>	Antegrade Subperiosteal Temporalis Muscle Elevation and Posterior Retraction Technique Avoiding Muscle Incision for Pterional Craniotomy - <b>Rai Survendra Kumar Rajdeo</b>
<b>INN 10</b>	Surgical technique for supplementary motor region (SMA) region gliomas based on white fiber topography and connectivity - <b>Abhidha Shah</b>
<b>INN 11</b>	A Novel Endoscopic Technique for Dural Closure: The Slanting Application of Titanium Clips for Intradural Space Preservation - <b>Ankur Bajaj</b>

**Free Poster Presentations**

<b>POS - 1</b>	Evolution in Understanding the Novel Clinical and Radiological Indicators Of Atlanto-Axial Instability - <b>Apurva Prasad</b>
<b>POS - 2</b>	Raised Icp Management by Lumbar Csf Ainage-A New Technique - <b>Sajjan Sarma</b>
<b>POS - 3</b>	A Prospective Study on the Incidence and Outcome of Cranial Nerve Injuries in Patients with Traumatic Brain Injuries - <b>Vivek Kankane</b>
<b>POS - 4</b>	Safety and Efficacy of Titanium Mesh Cage Reconstruction with Anterior Cervical Plating after Cervical Corpectomy - <b>Pavan Kumar</b>
<b>POS - 5</b>	Outcomes in Patients with Severe Head Injury - <b>Pulak Nigam</b>
<b>POS - 6</b>	Multi Lobed Intracranial Aneurysms - An Institutional Experience, Challenges of Management and Literature Review - <b>Rakesh Ranjan</b>
<b>POS - 7</b>	Validation Of Neuronavigation Guided Intraventricular Catheter Placement - <b>Ashish Kanhayalal Yadav</b>
<b>POS - 8</b>	Surgical Outcomes and Complications of Anterior Cervical Approach to Cervical Spondylotic Myelopathy: An Institutional Experience - <b>Mahesh Kumar Kusta</b>
<b>POS - 9</b>	C1-C2 Fixation by Posterior Approach - <b>Hanumant Kinikar</b>
<b>POS - 10</b>	Neurosurgery in Pregnancy - <b>Vyom Bhargava</b>
<b>POS - 11</b>	Extended Indications of Minimally Invasive Spine Surgery-An Institutional Experience in Delhi-Ncr - <b>Anuvrat Sinha</b>
<b>POS - 12</b>	Study of Factors Predicting the Outcome in Intradural Extramedullary Spinal Cord Tumours-75 Cases - <b>Metlapalli Venkata Sairam</b>
<b>POS - 13</b>	Dorsolumbar Extradural Ganglioneuroma Causing Bilateral Lower Limb Weakness and Scoliosis in A 6-Year-Old Child: A Rare Case Managed Via Lateral Extra-Cavitary Approach - <b>Garima Kadyan</b>
<b>POS - 14</b>	Thoracic Ossified Ligamentum Flavum and Neurological Recovery: Experience from A Case Series - <b>Saurav Das</b>
<b>POS - 15</b>	Igg4-Rd Presenting with Peripheral Nerve Disease - <b>Pratibha Prasad</b>
<b>POS - 16</b>	Stereotactic Biopsy of Brain Lesions: Single Center Experience of 6 Years - <b>Ishwar Chana Premsagar</b>
<b>POS - 17</b>	Diffuse Axonal Injury from Present to Future - <b>Tapas Chatterjee</b>
<b>POS - 18</b>	Massive Edh - Time Is Brain - <b>Sukirti Chauhan</b>
<b>POS - 19</b>	Spontaneous Resolution of A Long-Segment Traumatic Spinal Epidural Hematoma in an 8-Year-Old Girl Without Neurological Deficits: A Case Report - <b>Managoli Chinmay Arun</b>
<b>POS - 20</b>	Presentation and Treatment Modalities of Isolated Cranial Fractures in A Tertiary Care Center - <b>P Suresh Kumar</b>

<b>POS - 21</b>	Clinicoetiological Profile of Patients Presenting with Intracranial Space Occupying Lesions (Icsol) in a Tertiary Care Hospital - <b>Kotha Aravind</b>
<b>POS - 22</b>	Hyocephalus Post-Decompressive Craniectomy – A Single Centre Experience – <b>T Satya Swaroop</b>
<b>POS - 23</b>	"Intracranial Dermoid - Common Entity in a Rare Location" - <b>Hiranmoy Biswas</b>
<b>POS - 24</b>	Gamma Knife Radiosurgery: A Versatile and Effective Modality of Radiosurgery – Single Institution Experience. - <b>C V S Dasaradhi</b>
<b>POS - 25</b>	Refractory Cerebral Salt Wasting Synome after Neurosurgery: Successful Management - <b>Gaurav Purohit</b>
<b>POS - 26</b>	Primary Central Nervous System Neuroblastoma in a Paediatric Patient: An Intriguing Case Report - <b>Vedanth M</b>
<b>POS - 27</b>	Wake-Up Little Bunnies, the Ever-Changing Landscape of Neurosurgical Practice - <b>Aravinth Kumar A</b>
<b>POS - 28</b>	Controversy in Low-Grade Glioma – <b>NK Das</b>
<b>POS - 29</b>	Use of Bone from Anterior and Posterior Osteophytes for Cage Fusion after Cervical Discectomy - <b>Dattaprasanna Katikar</b>
<b>POS - 30</b>	A Redo Anterior Approach Still Remains a Viable Option in Patients with Ligamentum Flavum Buckling as a Result of Anterior Approach - <b>Vikas Verma</b>
<b>POS - 31</b>	My Difficult Cases - <b>Sudhanshu Rewatkar</b>
<b>POS - 32</b>	Role of Cadaveric Training in Prevention and Management of Internal Carotid Artery Injury in Pituitary Surgery - <b>Sukhdeep Singh Jhawar</b>
<b>POS - 33</b>	Astroblastoma in a 4 Year Old: Rare Pediatric Supratentorial Tumor with Diagnostic Challenges - <b>Vibhu Jain</b>
<b>POS - 34</b>	Congenital – <b>K Rajena Retnam</b>
<b>POS - 35</b>	Case Report Pheochromocytoma - <b>Mukesh Singh</b>
<b>POS - 36</b>	Post Operative Outcomes of Upper Cervical Injuries - <b>Prabhakar Narayan</b>
<b>POS - 37</b>	C1–C2 Fracture with Anomalous Vertebral Artery: A Case Report and Surgical Implication - <b>Anand Raj</b>
<b>POS - 38</b>	High-Grade Sarcoma Presenting as a Solitary Parieto-Occipital Brain Lesion in a Patient with Metastatic Dermatofibrosarcoma Protuberans - <b>Sanju Chatterjee</b>
<b>POS - 39</b>	AI-Augmented Neurosurgical Decision-Making: Impact on Resident Performance in Patient Management Scenarios - <b>Tarunesh Sharma</b>
<b>POS - 40</b>	Cerebellar Preservation in Large Vestibular Schwannoma Surgery: Combined Translabyrinthine–Retrolabyrinthine Approach with Facial Nerve Integrity
<b>POS - 41</b>	Not all dumbbells ate schwannoma - <b>Jeyaselva Senthilkumar</b>

<b>POS - 42</b>	Seeing is Believing: AI Imaging Overlays for Smarter Neurosurgical Consent — A Prospective Study from GRMC Gwalior - <b>Shivam Sharma</b>
<b>POS - 43</b>	Traumatic Odontoid Fracture - 5 year outcome study - <b>Dhruva Holla</b>
<b>POS - 44</b>	Bilateral Deep Grey Matter Infarcts following chronic subdural hematoma evacuation - unreported complication after a common procedure - <b>Suraj Ethiraj</b>
<b>POS - 45</b>	From Grey Matter to Greater Matters: Striking Balance Beyond the Brain - <b>Aviral Sharma</b>
<b>POS - 46</b>	Paediatric spontaneous CSF otorrhea with concurrent neck pseudomeningocele: a novel case report - <b>Adeline Hephzibah</b>
<b>POS - 47</b>	'Missing A1 Unmasked During Surgery for Ruptured ACoA Aneurysm: Navigating the Unexpected' - <b>Praveen Ravichandran</b>
<b>POS - 48</b>	Recurrent Orbital Intraconal Arachnoid Cyst in a Young Adult – A Rare Case Report - <b>Sagar Dilip Rathod</b>
<b>POS - 49</b>	Fanconi Anemia Neuroinflammatory Syndrome: Characteristic Brain Lesions, Progressive Decline, and Surgical Management in a Rare Case - <b>Navajith Mani</b>
<b>POS - 50</b>	Cervical myelopathy secondary to facet-destructive tumoral calcinosis in systemic sclerosis: a case report and literature review - <b>Kishor Kumar</b>
<b>POS - 51</b>	Automatic Segmentation of the Subthalamic Nucleus and Globus Pallidus Internus: Can it support planning and programming in Deep brain stimulation - <b>Tanmoy Maiti</b>
<b>POS - 52</b>	Central neurocytoma-A rare intraventricular tumor unraveled: Single case report - <b>Ankur Banerjee</b>
<b>POS - 53</b>	Beyond Seizure Control: Tackling the Dental Health Crisis in Epilepsy - <b>Nandana J</b>
<b>POS - 54</b>	D1 Vertebrae Intraosseous Schwannoma - A Rare Case Report - <b>Satej Patnaik</b>
<b>POS - 55</b>	Navigating Diagnostic Pitfalls In Isolated Neurosarcooidosis: A Case Of Simulated Meningioma - <b>Himansu Sekhar Kand</b>
<b>POS - 56</b>	When Location Misleads: Olfactory Groove Presentation of Extra Ventricular Ependymoma - <b>Krishna Sai Dhanekula</b>
<b>POS - 57</b>	Ventriculo-gallbladder shunt: An alternative treatment for Hydrocephalus - <b>Mohammed Ameer</b>
<b>POS - 58</b>	Titanium Mesh Cranioplasty and Rotational Flap for Calvarial and Scalp Reconstruction in a Pediatric High-Voltage Burn Injury - <b>Soumya Prakash Pradhan</b>
<b>POS - 59</b>	Radiomics in Meningioma and Glioma: Predicting Grade Before the Biopsy - <b>Jitendra Yadav</b>
<b>POS - 60</b>	Expansive Duraplasty - Novel Technique with Promising Results in Complete Cervical Spinal Cord Injury - <b>Deepak Agrawal</b>
<b>POS - 61</b>	Spine surgery in lateral position - <b>Vijaymahantesh K Pujari</b>

<b>POS - 62</b>	Congenital Lesion Presenting As Paraplegia Following Trauma - <b>Muruganandam G M</b>
<b>POS - 63</b>	Rathke's Cleft Cyst in the Third Ventricle with bleed - <b>Tanmay Kulkarni</b>
<b>POS - 64</b>	Rapid Paralysis, Rare Diagnosis: A case of Spinal Subdural Hematoma - <b>Sanjeetha Zainab T</b>
<b>POS - 65</b>	Dual DBS targeting for both parkinson disease and essential tremors using single electrode on each side - <b>Abhishek Patel</b>
<b>POS - 66</b>	Intradural Ewing's Sarcoma metastasising to the brain (third ventricle) through the CSF pathway - <b>Manuja Pimplodkar</b>
<b>POS - 67</b>	Benefits of gabapentin GRS in the management of neuropathic pain: a review of literature - <b>Abhishek Songara</b>
<b>POS - 68</b>	Title-Holocord pilocytic astrocytoma: Minimum effort, maximum result- a case report - <b>Nilesh Bhaskar More</b>
<b>POS - 69</b>	Endovascular Management of Giant Dissecting Pseudoaneurysm of the Internal Carotid Artery with Flow Diversion and Coiling – A Case Report - <b>Naveen Kumar M</b>
<b>POS - 70</b>	Real-Time rescues at the Craniovertebral Crossroads: Ionm's Critical Role - <b>Harshit Garg</b>
<b>POS - 71</b>	Beyond the Blow: Mapping early seizure risk in traumatic brain injury patients - <b>Vishnu S Murali</b>
<b>POS - 72</b>	Bayesian Meta-Analysis of Neurosurgery Simulation Training Effectiveness - <b>Aman Bakhsh</b>
<b>POS - 73</b>	Clival Plasmocytoma- A case report and review of literature - <b>Ramcharan Peddini</b>
<b>POS - 74</b>	Parafalcine Meningioma Presenting as Vertex Swelling: A Rare Case Report - <b>Roshan Kumar Meher</b>
<b>POS - 75</b>	A case report of Intraventricular neurocysticercosis ( IVNCC ) - <b>Prasanth</b>
<b>POS - 76</b>	A Commoner at an extremely rare site: A case of dorsal Intramedullary Spinal Dermoid Cyst - <b>Anubandh Ponnamanda</b>
<b>POS - 77</b>	A RARE ENCOUNTER: Paediatric Meningioma in a 7 month old-A Case Report – <b>Surendran V</b>
<b>POS - 78</b>	Vessel in Gutter Technique for Trigeminal Neuralgia: A Novel MVD Approach - <b>Bismoy Mondal</b>
<b>POS - 79</b>	Spinal Tumour- Garland of neurofibromas in Neurofibromatosis Type 1 – <b>Darapu Kalyan Reddy</b>
<b>POS - 80</b>	Primary Neuroendocrine Tumor Of Conus Cauda Region : A Rare Case Report - <b>Suryanarayan Swain</b>
<b>POS - 81</b>	A Solitary Extramedullary Plasmacytoma in Glomus Jugulare Presenting As Hearing Loss : A Rare Case Report - <b>Yaswanth Kumar Bade</b>

<b>POS - 82</b>	Case Of Hypertrophic Pachymeningitis Misleading As Recurrent Subdural Hygroma In Post Traumatic Edh Patient - <b>P Muthuraman</b>
<b>POS - 83</b>	Evaluating the Reliability of Large Language Models in Neurocritical Emergencies: A Triangulated Analysis of Pontine Hemorrhage Outcomes and AI predictions - <b>Eilene Basu</b>
<b>POS - 84</b>	A flower in the Brain - Planum sphenoidale meningioma - <b>Ritesh Gupta</b>
<b>POS - 85</b>	Mirror Aneurysms Of Middle Cerebral Artery - <b>Udayagiri Shanmukha Srinivasulu</b>
<b>POS - 86</b>	An Unusual Case of Scalp Mass Of Frontal Region –Langerhans cell histiocytosis:A Case Report – <b>B Eswar Naik</b>
<b>POS - 87</b>	In pursuit of a Novel scoring system for Tuberculous Meningitis related Hydrocephalus using clinic-radiological parameters aided by Artificial Intelligence - <b>Samir Kumar Kalra</b>
<b>POS - 88</b>	Ascending transtentorial herniation: a rare complication of posterior cranial fossa tumors and Review of Literature - <b>Velpula Sreekanth</b>
<b>POS - 89</b>	Intranasal Coil Protrusion After ICA Embolization following Endoscopic TNTS surgery: A case report and literature Review - <b>Vedang Bhushan Mahajan</b>
<b>POS - 90</b>	Fourth Ventricular Neurocysticercosis causing Acute hydrocephalus - <b>Dheeraj Shrikant Innanje</b>
<b>POS - 91</b>	Building New Pathways: A Pediatric Case of Moyamoya Disease Treated with Indirect Revascularization - <b>Md Sarif Ahmed</b>
<b>POS - 92</b>	Radiation Induced Meningioma: Learning Lessons on Retrospective Analysis - <b>Ayush Keshav Singhal</b>
<b>POS - 93</b>	Predictive Factors of Postoperative Peritumoral Brain Edema after Meningioma Resection: A Prospective Study - <b>Manideep</b>
<b>POS - 94</b>	A Rare Case Of Pediatric Primary Cervical Atypical Teratoid/ Rhabdoid Tumour In A 9-Year-Old Child - <b>Rahul Jain</b>
<b>POS - 95</b>	An Unusual Association Of Takayasu Arteritis with non communicating Hydrocephalus - <b>Gitesh Chaudhary</b>
<b>POS - 96</b>	A Retrospective Study of Encephalocele Management: Institutional Experience - <b>Sajag Kumar Gupta</b>
<b>POS - 97</b>	Endoscopic Assisted Evacuation Of Non-Acute Sdh: A Short Case Series - <b>T Goutham Hanu</b>
<b>POS - 98</b>	Lax Duroplasty in Traumatic Brain Injury – An underrated but Essential step In Decompressive Craniectomy - <b>Palash Kundu</b>
<b>POS - 99</b>	Clinical Application of the Temporal Lobe Contusion Grading System in Head Injury Management: Validation in 74 Patients - <b>Pulak Nigam</b>
<b>POS - 100</b>	"3D IN SPINE": A Case series of 3 cases of intramedullary Dermoid cysts of Dorsal spinal cord causing Disability - <b>Tirtha Raj Manna</b>

<b>POS - 101</b>	Endoscopic Management of Complex Multiloculated Hydrocephalus – Case-Based Review - <b>Hrishikesh J. Patel</b>
<b>POS - 102</b>	Mirror, mirror on the dura - A tale of meningiomas - <b>Devi C P</b>
<b>POS - 103</b>	Bullhorn appearance of skull in a follow up case of Craniosynostosis - <b>Abhijit Acharya</b>
<b>POS - 104</b>	Invasive Aspergillosis Mimicking Pituitary Adenoma In an Immunocompetent Patient: A management dilemma - <b>Sagnik Roy</b>

**SUNDAY 14<sup>TH</sup> December**

**6:30am**

**Brilliant Convention Centre**

**RUN FOR THE BRAIN**
